Lord of Diplomats May Last
Find Howard Rotures;
Americans Suffer

Will Rogers Remarks:

BEVERLY HILLS, June 5. (To the Editor of The Times.) England elects a Labor government. When a man goes in for politics over here he has no time to labor, and any man that labors has no time to fool with politics. Over there politics is an obligation, over here it's a business.

Yours,
WILL ROGERS.

P.S.—There is one thing about Lindbergh's escape, it is the only thing that happened this spring that hasn't been laid onto the Federal Reserve.

PARIS FILM RIFT NEAR

Americans May Quit Market

State Department Advises
France That Producers
Can't Meet Rule

Hays Declares Four-to-One
Basis Presents Bar to
Picture Makers

WASHINGTON, June 5. (P)—The State Department, at the request of domestic film interests, has informed the French government that American films will be completely withdrawn from the French market if the four-to-one quota on imported films is established in France.

Will H. Hays, chief of the American film interests, has informed the State Department that the American companies will be unable to financially meet the requirements of the proposed quota, which provides for the purchase of American films in one French film for every four shown in France.

Mr. Hays has discussed the situation at length with State Department officials by telephone from New York and Maj. Frederick L. Herron, representing the motion picture producers and distributors, has laid the case of the American interests before the State Department.

It was said at the department today that the action, which was taken by the American Charge d'Affaires in Paris, is not in the nature of representations to this government, but simply in the manner of communicating to the French the American producers' attitude as expressed by Mr. Hays.

GLASES REND VESUVIUS Blasts Bombard Crater

Lava Flow Speeded Up But
Diminished in Quantity,
Observers Report

Praying Villagers Flee Towns
as Arms of Liquid Rock
Envelop Homes

CRATER'S EDGE (Vesuvius) June 5. (P)—The explosive activities of the eruptive cone of Mt. Vesuvius increased in liveliness and in the quantities of material emitted to-night. Tremendous barrages of rocks were bombarding the walls of the great crater.

In a bulletin from the Vesuvian Observatory, Director Malladra expressed the opinion that the lava flow had diminished in quantity and in heat, despite the continued explosive activity. He thought from present indications that further danger would be avoided, yet he concluded:

"But the life of volcanoes is so mysterious that one cannot judge the outcome from the appearances of the moment."

HUNDREDS OF
HOMES DESTROYED

NAPLES (Italy) June 5. (P)—The molten lava which has been moving down the sides of Mt. Vesuvius since Monday like an insatiable fate diminished in volume today. Some observers, however, said that the streams had increased their speed.

An official bulletin tonight said that the flow, which was invading the villages of Barre and Pagan outside of Terzigno, had decreased, but it was still sufficient to throw thousands of inhabitants of the countryside into a panic.

LAVA SURROUNDS TOWN

Terzigno, which is a flourishing town, was nearly surrounded by streams of lava burning rock. More than 100 dwellings already have been destroyed and hundreds more still are threatened.

The first injuries to human beings were recorded when a number of students ventured near the crater of the volcano and were showered with a sudden eruption of rocks. The students fled to the Vesuvian Observatory, but some fell on the rocky ground in their haste and were slightly hurt. They were treated at the observatory.

PRAYING VILLAGES FLEE

Nearly all villages within reach of the long lava arms of the volcano have been evacuated, soldiers aiding the inhabitants to convey belongings to safety. As the inhabitants retired they sang hymns and prayed that God would avert the wrath of Vesuvius.

Although the Vesuvian Observatory communique said that the lava flow was diminishing, observers asserted that it had increased its speed to 1500 feet an hour. The lava stream, which had been headed toward the Campitello Woods, causing a belief that it would pass by habitations, changed its course and destroyed a number of houses in the suburbs of Terzigno.

DUCE LINKED TO HERESY

Pope Denounces Mussolini

Dictator's Speeches Cause
Pontiff Much Displeasure,
He Writes Cardinal

Rift With State Deepened;
Right to Rule School
Matters Restated

VATICAN CITY, June 5. (P)—Pope Pius XI, in an open letter to Cardinal Gasparri, papal secretary of state, today stated that he frankly is displeased with several statements in speeches made by Premier Mussolini on the Lateran treaties before the Italian Chamber and Senate.

The Duce's speeches in question were delivered May 13 in the Chamber of Deputies and May 25 in the Senate, and urged the ratification of the Lateran accords drawn up between the Italian government and the Vatican.

His Holiness replied to both these speeches in the open letter to Cardinal Gasparri which was published tonight in the Osservatore Romano, finding in them "worse than heretical expressions as to the very essence of Christianity and Catholicism."

HE DEPLORES RIFT

The pontiff deplored the rift in the understanding between the Fascist government and the Holy See, which had come after such laborious discussion. He termed it "an unwelcome and dolorous interruption."

He concluded, however, that peace between Italy and the Holy See will last because of his own faith in the fidelity and the good will of men, but above all because of his "great faith in the help of God."

The Pope reiterated the primordial claim of the Catholic Church to supervise the education of youth and the church's pre-eminence in Italy as the state religion. He stoutly defended the church from any imputation of encroachment on the legitimate sovereignty of the state, but insisted that the church's rights must be scrupulously respected.

REFUTES MUSSOLINI

The pontiff continued by defending the doctrine of the universality of the church and refuting Premier Mussolini's implied thesis that it was Rome which saved Christianity and not Christianity the Roman empire.

By implication, the Pope declared that the Duce was badly inspired to cite the honeycombed privacy by means of an unexpected midnight sailing out of Provincetown Harbor on their express cruiser Mouette, Coast Guard headquarters here reported that the ship was firing with fire from Coast Guard patrol boats.

Newspaper stories today to the effect that a piece of canvas draped over the stern of the Mouette effectively hid her name brought comment from Coast Guard headquarters that a boat whose identity is in anyway concealed would not expect Coast Guard gunfire unless she promptly identifies herself on request.

Meanwhile, the shroud of secrecy which has cloaked the whereabouts of Col. Lindbergh and his bride ever since their marriage more than a week ago again dropped over them as effectually as a Grand Banks fog.

The Mouette, after being spotted yesterday from newspaper airplanes and trailed along the outside arm of Cape Cod from Monomoy to Provincetown, slipped out of the Cape Cod Channel at 12:30 this morning and showed her heels to the fastest thing in Provincetown fishing boats which endeavored to keep newspapermen abreast of her. Airplanes later secured Massachusetts Bay without sighting the cruiser.

HONEYMOON CRAFT RUNS SHELL RISK

Lindberghs Slip Out of
Harbor, Yacht Disguised;
Run Guar Is May Fire

BOSTON, June 5. (Exclusive)—While Col. Charles A. Lindbergh and his bride, the former Anne Morrow, today appeared to have won their freedom from the privacy by means of an unexpected midnight sailing out of Provincetown Harbor on their express cruiser Mouette, Coast Guard headquarters here reported that the ship was firing with fire from Coast Guard patrol boats.

Newspaper stories today to the effect that a piece of canvas draped over the stern of the Mouette effectively hid her name brought comment from Coast Guard headquarters that a boat whose identity is in anyway concealed would not expect Coast Guard gunfire unless she promptly identifies herself on request.

Meanwhile, the shroud of secrecy which has cloaked the whereabouts of Col. Lindbergh and his bride ever since their marriage more than a week ago again dropped over them as effectually as a Grand Banks fog.

Morrow Starts Back, Cutting His Vacation Short

WASHINGTON, June 5. (P)—Ambassador Morrow is en route to his post in Mexico City, having cut short previously announced vacation plans in the United States by about a month.

Although the Ambassador had expected to remain in this country until July 15, State Department officials declared today there is no unusual significance in the termination of his visit.

Mr. Morrow, however, will arrive in Mexico City near the time when the proposed negotiations between the Mexican government and Catholic Church officials will be commenced.

Archbishop Ruiz of the State of Michoacan will leave within the next few days for Mexico City to participate in the religious discussions.

NORTHERN SECTIONS GET RAINS

Precipitation Varies from
Trace to Third of Inch;
More Due Today

SAN FRANCISCO, June 5. (Exclusive)—Deserted by high-pressure areas which had hounded it over the Rockies for the last three days, a trough of low barometric pressure spread its influence from mountains to the sea and down to the bay district today in rainfall that varied from a trace to a third of an inch. Forecaster Reedy's prediction tonight is for more showers in the northern part of the State tomorrow.

The precipitation in inches as reported by northern stations at 5 p.m. was:

Station	Amount
Eureka	.24
Red Bluff	.34
San Francisco	.23
San Jose	.15

Cloudburst Near Cheyenne Gives Town New Peril

CHEYENNE (Wyo.) June 5. (P)—Residents along Crow Creek in Cheyenne were warned tonight at 11:30 o'clock to evacuate their homes. A flood of considerable proportions was reported flowing toward Cheyenne as the result of a cloudburst.

The warning came from a rancher fifteen miles northwest of Cheyenne. He said there had been a cloudburst and that a "large amount of water was moving to Cheyenne." The crest of the flood is not expected in Cheyenne for several hours.

New Hollywood Building Urged

WASHINGTON, June 5. (P)—Representative Cull, California, announced today that he will press the House Public Buildings Committee at the regular session of Congress for action on his measure to authorize construction of a \$1,000,000 public building in Hollywood.

The measure was introduced at the last session and reintroduced early this session.

Viking's Skull Linked to Days of Neanderthal

COPENHAGEN, June 5. (Exclusive)—Danish newspaper today report the sensational discovery by a Danish scientist and professor of anthropology, C. C. Hansen, of the skull of an old Viking from the days of the Red in Greenland.

Prof. Hansen declares that the skull belonged to a descendant of the Neanderthal man, but apparently was heavier than that of his ancestor. It is believed that the discovery will shed new light on the history of Greenland's population as well as that of Europe.

Court District Measure Signed

SACRAMENTO, June 5. (P)—A fourth appellate court district embracing ten Southern California and San Joaquin Valley counties was approved by Gov. Young today with the signing of Assemblyman Lerman's bill.

As the new district stands, it is to be composed of Fresno, Tulare, Kings, Kern, Inyo, San Bernardino, Riverside, Orange, Imperial and San Diego counties.

Higher Tobacco Tariff Assailed

NEW YORK, June 5. (P)—A resolution adopted by the National Cigar Leaf Tobacco Association today condemned "as absolutely ruinous to the nickel-cigar business" the proposed increase of 40 cents a pound on imported wrapper tobacco now provided for in the Hawley tariff bill. The bill has been passed by the House.

The higher tariff rate will increase the cost of production 80 cents a thousand, the resolution says.

Town in Peril From Wild Fire

THE PAS (Man.) June 5. (P)—The forest fire at Cranberry Portage, fifty-one miles north of here on the Flin Flon Railway, got beyond control again today and threatened the town with destruction. Half of the town was destroyed yesterday. A strong wind was blowing.

TALLMAN ESCAPES

Suspect Missing From Ship

Accused Murderer of Mrs.
Patty Gone When Vessel
Docks in San Francisco

Scars on Stateroom Door
Tell Mute Story of How
Prisoner Got Out

BY FLOYD J. HEALEY.
"Times" Staff Correspondent
SAN FRANCISCO, June 5. (Exclusive)—William L. (Handsome Bill) Tallman, the human fly in the Virginia Patty murder web, got out of the web last night. He escaped from the steamer Admiral Benson somewhere in the vicinity of the Golden Gate while Detective Lieutenant Condrick of Los Angeles and San Francisco officers waited for the ship to dock at the Admiral Line pier.

He may have leaped overboard or he may have secreted himself aboard the ship. If the latter, his presence had evaded the closest search up to 1 a.m.

Officers who met the ship at Pier 30 boarded it bearing a warrant for Tallman's arrest on a formal charge of beating Mrs. Patty, a married woman, to death with a brickbat and hanging her body in a clothes closet of an apartment on Union avenue in Los Angeles, which Tallman, allegedly had rented in the name of W. C. Johnson of San Francisco.

MEET BY CAPTAIN

The detectives were met at the head of the gang plank by Capt. Martin Sobat, who gave orders that no passengers were to leave the ship and led the way to the stateroom where Tallman had been locked in at 8:30 p.m.

When the group reached the stateroom door the door refused to yield to their above and the room lights were found to have been extinguished.

Obtaining a crowbar they forced their way into the stateroom. It was empty. The lock had been removed from the inside of the door and scratches indicated a sharp instrument had been used to pry it loose.

PASSENGERS DEBARK

Once convinced that Tallman had eluded the net placed for him, the word was given for all debarking passengers to get ashore. Of the sixty-three passengers aboard the vessel, twenty were booked for San Francisco. Each of them went down the gang plank under the minute scrutiny of detectives and officers of the Admiral Benson.

The forty-three passengers going farther north on the vessel then were ordered to their staterooms and a thorough search of the ship was made.

Arthur Biesel, chief steward, is the last person known to have seen Tallman aboard ship.

The two last dinner together. Immediately thereafter, Biesel said he took Tallman to the stateroom which he had occupied as a passenger from Los Angeles and in which he had been placed under arrest at the radio request of Los Angeles police.

Tallman was locked in Biesel said at 8:30 p.m. The wireless operator of the Benson saw the two going to the stateroom and placed the time at the same hour.

KEYS GIVEN CAPTAIN

Biesel, after locking the prisoner in the stateroom, took the keys to Capt. Sobat, and the crew bustled itself in preparing to tie up at the San Francisco pier. That was the last seen of the prisoner.

Later, when detectives began their questioning of members of the crew, it was learned that Tallman's arrest aboard the ship had not been communicated to any of the other sixty-three passengers.

As a result, it was said, Tallman mingled with the other passengers in the dining saloon and in recreation on the decks on the other side of the ship.

Under these conditions, police said, Tallman might easily have mingled with the passengers on the decks after escaping from his stateroom.

Gunboat Luzon Reported
in Grave Danger After
Grounding in China

WASHINGTON, June 5. (P)—The United States gunboat Luzon of the river patrol in China is in a dangerous position aground on the breakwater at Woonung.

The gunboat's plight was reported to the Navy Department in a message from the commander of the Asiatic squadron received early today, which said there was a "possibility of bad weather causing total loss of ship if not floated on present spring tide."

All available units of the fleet, the commander reported, have been sent there to assist the gunboat.

SENATE KILLS LIQUOR BILL IN ILLINOIS

Measure Repealing State
Dry Law Voted Down
After Passing House

SPRINGFIELD (Ill.) June 5. (P)—By a vote of 29 to 21, the State Senate tonight killed a bill that would have repealed the State prohibition enforcement law, subject to referendum. The measure previously had passed the House.

The measure killed was known as the Weber-O'Grady bill, and would have repealed the search and seizure act and enforcement law.

The bill was supported by legislators from the metropolitan district and was defeated by a bitter fight during which sponsors charged opposing Senators with being in the pay of the Anti-Saloon League.

Senator David Starr, a supporter of the bill in pleading for passage of the bill in character who had used liquor. He mentioned Noah's three sons, David and several others.

He was shouted down with cries of "Amen!" from opponents of the measure.

SMALL BOY KILLS SELF
TURLOCK, June 5. (P)—Billy La Graves, 7-year-old son of William La Graves, died in a hospital here tonight. He shot himself accidentally yesterday when he thrust a weapon in his belt. He had been hunting with a companion, Frank Lee, 14.

Island Uprising Plotted by Reds

THE HAGUE, June 5. (Exclusive)—According to messages from Batavia, Java, an extensive Communist plot has been discovered by officers of the Dutch Indian army on the Isle of Flores.

Several villages had decided to rise up against the Dutch Indian government. Numerous arrests were made among the leaders and followers.

HUNTER KILLED BY CHARGING ELEPHANT

CAPTOWN, June 5. (Exclusive)—Following a wounded elephant, W. A. Sayer, who was hunting in the Rhundasi district of Northeast Rhodesia, found himself suddenly surrounded by a herd of the pachyderms, which charged and killed him before he could fire.

SCIENCE FINDS SUPER EYES

Criminal of Future Can't Escape High-Powered Microscopes, Expert on Identification States

WASHINGTON, June 5. (P)—The Sherlock Holmes of tomorrow will not be a detective solving baffling mysteries by his own cleverness but a scientific expert relying on standardization methods of precise identification.

This prediction was made by William Souder of the Bureau of Standards, in placing before the National Conference of Weights and Measures the bureau's work with the problems of identification.

The cunning criminal, who masks his face and gloves his hands, the expert showed, will find himself pitted against the cold scrutiny of supermicroscopes that will tear his identity from a typewritten document, a pistol ball, a cartridge shell, or a signature.

SCIENCE TO RULE

Experts who make identifications in a logical, precise manner will replace "the so-called experts who recognize no limitations, no standards, and no equipment as essential in their field," Mr. Souder said.

In an effort to establish standard for this class of work, it was explained, the bureau has taken up the problems of identification of written and typewritten documents, signatures, guns and bullets.

CAN'T BE DESTROYED

Attempts to destroy "these beacon lights of evidence," Mr. Souder said, "are seldom successful and would require on the part of the one who seeks to mask them a perfect analysis of every defect with equipment not readily available."

Ballistic identifications, which have as their purpose the determination of the gun from which a certain bullet was fired, may be made by measurements and comparisons.

Marks left on a ball by the grooves of a pistol barrel, the imprint of a firing pin and breech markings on a shell, rust spots and injuries to the inner surface of a barrel, he said, are all measurable traces.

DEMOCRATIC RIFT AIRED

Chairmanship of Raskob Hit

Simmons of North Carolina
Demands "Unhorsing"
for Harmony

Affair for Leader's New Aide
Brings Differences
to Surface

WASHINGTON, June 5. (AP)—The calling of a Democratic party dinner here next week for Joseph Simmons, newly appointed lieutenant of Chairman Raskob of the national committee, has brought to the surface party differences and resulted today in a demand by Senator Simmons of North Carolina for the "unhorsing" of Raskob "in the interests of harmony."

Senator Simmons bolted the leadership of Raskob and Alfred E. Smith in the last campaign.

SIMMONS' COMMENT
Commenting on the proposed Democratic party dinner next week at which Mr. Raskob will speak, the North Carolinian declared:

"Harmony in the Democratic party requires the unhorsing of Raskob. The Democratic party is not a liquor party. We don't want a chairman who so strongly favors liquor that he accepts service on the committee for the purpose of helping to destroy the Eighteenth Amendment. We don't want a Republican as chairman of the Democratic committee."

The dinner next week is a local affair, arranged by the Jefferson Democratic Association of Washington. Robert N. Harper, president of the association, dispatched invitations to all Democratic members of Congress.

SENATORS' PLANS
Few aside from Senator Simmons have commented on the affair. Senators Olson and Swanson of Virginia have stated they have no arrangements on the night of the dinner.

There have been indications for several weeks that Sir Esmé was preparing for some such step. In April he told friends that when he wanted another liquor shipment permit he would inform the American Secretary of State that he did not want the liquor unless the United States was willing to have it brought in.

LETTER STARTLED
Just two weeks ago Sir Esmé startled Washington diplomats by writing a letter to James T. Carter of Lynchburg, Va., in which he asserted the belief that embassies and legations in Washington would import no more liquor if the government requested that shipments be stopped.

On his return from New York, two days after his letter was made public, Ambassador Howard held a short conference with Secretary of State Simmons. What transpired at this meeting never has been made known in detail, but indications were that the Ambassador was told that Mr. Simmons had no intention of requesting foreign officials to stop importing liquor and that if the Ambassador wished to stop the practice voluntarily this was his affair.

SPEECH RESENTED
After his White House visit, Ambassador Howard had a survey made of the amount of whiskies and wines imported by his staff. One reason for this lay in criticisms by members of Congress against the diplomatic practice of importing liquor. In one speech called to the Ambassador's attention, it was asserted that liquor imported by diplomats was used to debauch American youth.

Ambassador Howard was aroused several weeks ago when the whole diplomatic liquor situation was reopened by police seizure of a truck load of liquor belonging to the American legation. At that time the Treasury Department made it known that while transportation of diplomatic liquor was illegal, nothing could be done about it. It was pointed out that American law made it a punishable offense for officers to interfere with a foreign officer or his goods.

PHOTO HURT PRIDE
The crowning blow, so far as Sir Esmé was concerned, came about a week later when photographers gathered in his driveway and the British Embassy and photographed a truck filled with choice whiskies and wines. The publicity accorded the movement of liquor was considered a blow at British dignity.

By voluntarily waiving his privilege of obtaining a permit for the importation of liquor, Ambassador Howard has taken a step which eventually may lead to the drying up of all Washington foreign missions. Should the Diplomatic Corps, of which Sir Esmé is dean, decide to forego asking for more liquor permits there would be no way shipments could be obtained as such applications must be signed by heads of missions.

VIEWS DIFFER
Diplomats, however, deny heatedly that the British Ambassador's dry view is theirs—in spite of his being dean of the corps. The French Ambassador recently authorized the statement that he "differs fundamentally with the view of the British Ambassador" and it is said that he already has heard from the Bordeaux wine merchants, who are alarmed at the prospect of losing the trade of Washington's Diplomatic Corps which amounts on an average to \$50,000 annually.

Although other chiefs of missions have refrained from expressing their feelings publicly, they do not hesitate to emphasize in private that it will be impossible for them to permit their "immunity" to be infringed on in this manner.

TURKISH PORT BURNS
LONDON, June 5. (AP)—A Reuter dispatch from Constantinople states that enormous damage was caused by a fire which destroyed a large part of the Port of Rodosto on the European bank of the Sea of Marmara about eight miles west of Constantinople.

HOOVER TO GET GOLDEN GIFT

Ore From Mine in Which He
Worked Made Into
Paperweight

WASHINGTON, June 5. (Exclusive)—Ore and gold from the first mine President Hoover worked in as a mining engineer, the Reward mine of Nevada county, has been made into a paperweight, and will be presented to the President on behalf of the chambers of commerce of Sacramento and Nevada county by Representative English within the next few days.

It is reported that the President worked in the Nevada county mine ten hours a day, and received \$2.50 for his work.

The paperweight on one side carries an inscription on a gold plate, and in its rough top section is a replica of the nugget discovered by James Marshall in 1848. It was that bit of gold which started the "gold rush" to California.

Senator Swanson has an engagement to speak in North Carolina on that night.

Senator Harris of Georgia, a supporter of the Smith ticket in the campaign, also has announced he has another engagement.

Senator Robinson of Arkansas, the Democratic leader in the Senate and the running mate of Smith, is expected to return to the city soon but whether he will be back for the dinner is not known.

Senator Smith of South Carolina, whose State was in the Democratic column again in the Presidential election, said he is not going to the dinner and does not care to make statements about it, "in the interests of party harmony."

**BRITISH ENVOY
CUTS OFF RUM**

(Continued from First Page)

over, it was asserted that a curb is to be placed on the serving of diplomatic beverages at functions attended by American officials and Washington society.

There have been indications for several weeks that Sir Esmé was preparing for some such step. In April he told friends that when he wanted another liquor shipment permit he would inform the American Secretary of State that he did not want the liquor unless the United States was willing to have it brought in.

LETTER STARTLED

WILBUR OBTAINS OIL AGREEMENT

Kettleman Hills Field Put on
Reserve List

Six Companies Decide to
Defer Development

Government Wants Area
Saved for Later Need

WASHINGTON, June 5. (AP)—Secretary Wilbur announced today that an agreement had been reached between the Interior Department and six oil companies operating on the middle dome of the Kettleman Hills field in California, which will shut off the bringing in of oil in that area.

The agreement was reached as a result of several weeks negotiations carried on by George Oils Smith, director of the Geological Survey.

ALL COMPANIES AGREE
The request of Secretary Wilbur for a postponement of drilling activity in this portion of the Kettleman Hills area was acceded to by all of the oil companies interested in permits on the government lands which make up about one-fourth of the total area of the dome. The area covered by the agreement contains about thirty-six square miles of possible oil land.

About one-half of the land in the middle dome is owned by the Standard Oil Company of California, which has joined with the government program of deferred development. The remaining nine square miles of the area is owned by several interests, most of which have agreed to a suspension of activity until January 1, 1931.

LARGEST CALIFORNIA FIELD
The northern limits of middle dome lie within two miles of a deep well of the General Petroleum Corporation, which struck a heavy flow of oil and gas last April.

Secretary Wilbur said the three domes of Kettleman Hills are so close together that they are potentially the largest oil field in California and the efforts of the administration have been directed to obtaining the full co-operation of oil companies in its orderly development so that waste may be prevented and a minimum of oil lost through being left in the ground.

It is the hope of the Interior Department, Secretary Wilbur said, that this field will not be tapped further until both the gas and oil stored there are needed. The production of the middle dome agreement, he believes, has now pointed the way for procedure in the case of the other two domes.

**YOUNG NAMES
CONSERVATION GROUP**

SACRAMENTO, June 5. (AP)—Gov. Young designated today the five members of his State oil and gas conservation committee to represent California at the Interstate conference opening in Colorado Springs next Monday.

Due to the pressure of other State business, but three of the committee are likely to be present at the conference, the Governor said. Those who will probably go to Colorado are Fred G. Steverson, State Director of Natural Resources; William Carr, member of the State Railroad Commission, and Atty. Gen. Webb. Other members of the committee are A. R. Heron, Director of Finance, and Ber. B. Meek, Director of the Department of Public Works.

**Ballots Stolen,
Counting Shows
Widow Defeated**

WILKES-BARRE (Pa.) June 5. (AP)—With the vote of one ward yet to be counted, C. Murphy Turpin, Republican candidate for Congress from the Twelfth District, tonight had a majority of 1070 over Sarah Casey, Dem. 21.

The vote missing is that of the Second District, Thirteenth Ward. On the count made by the election board Tuesday night Turpin had 291 and Mrs. Casey, 120.

Just as the vote count was completed, however, a bundle broke into the box, destroyed papers and carried off some of the ballots.

Mrs. Casey, widowed mother of eleven children, had been expected to succeed her husband in Congress.

**Three Highway
Contracts Let**

SACRAMENTO, June 5. (AP)—Three highway contracts have been awarded by the Department of Public Works to the following:

Thames Brothers of Berkeley, \$41,152 for the grading and surfacing of 6.7 miles between a point three miles east of Parkfield Junction to Colusa, Fresno county.

The McLeod-Frazier Company of Eureka, \$56,287 for construction of one overhead crossing and seven timber bridges on the Humboldt section of the Redwood Highway.

C. C. Glidewell of Felton, \$20,941 for the construction of an underground passage near Doyle, Lassen county.

THREE ARMORIES PLANNED

PHOENIX, June 5. (AP)—Plans and specifications for construction of three State armories to cost approximately \$200,000 each, are being completed and bids either singly or as a group will be advertised shortly. It was stated by the Adjutant General today. The new armories, for use of the National Guard units, will be located at Safford, Douglas and Nogales.

CRIES FIX TIME OF CRIME

Tenant of Patty Apartments Relates Hearing Death
Screams on Saturday Morning

Discovery of two narcotic pellets and a hypodermic needle in the exclusive West Sixth-street apartment of Mrs. Virginia Patty, asserted to have been beaten to death by a jealous admirer, yesterday swerved sharply the police investigation directed at piercing the veil of the murder mystery.

Immediately the investigating officers obtained several strong clues involving physicians and beach mystery trips made by Mrs. Patty during the last days of her life.

SUSPICION SUPPORTED
Frank D. Patty, husband of the slain woman, has told the officers that he feared his wife was addicted to narcotics, and the discovery of the pellets and needle in the apartment seems to confirm his suspicions.

Chief of Detectives Cline and Capt. Bean now are inclined to believe that one of the strangest and weirdest stories of all Los Angeles murder mysteries lies behind the death of the woman.

The discovery of the woman's beaten and garroted body trussed on clothes pegs in a South Union-street apartment-house, Tuesday afternoon, was the first clue in the mystery under strict scrutiny, the officers later yesterday found a brown suit in the apartment at 223 South Union-street where the body was discovered, and Chief Cline declared the garments, which are blood-spattered, have been taken from the apartment.

Tallman is asserted by police to have rented the apartment under the alias of "W. C. Johnson."

ONE KEY ISSUED
With that another significant angle of the case appeared yesterday when the manager of the apartment-house said she had given out but one key to the apartment where the body was found, and that was given to "Johnson," who, police say, is Tallman.

Advices from the steamer Admiral Benson on which Tallman departed from San Pedro Tuesday afternoon declared that the youth boarded the ship as a passenger to San Francisco without clothing change or baggage.

Throughout the voyage to San Francisco Tallman has maintained silence, other than to deny that he killed the woman or knows anything of the case, according to radiograms from Capt. Bohst, master of the vessel.

After the ship sailed Tuesday, Chief Cline, who is in charge of the hunt for Tallman, immediately on receipt of the order Capt. Bohst complied and replied saying Tallman was made a prisoner in his cell.

The officers say they have determined that Mrs. Patty probably received the fatal beating at the apartment house between 2 and 3 a.m. last Saturday, and declare they have a witness to that effect.

NOT DEAD IMMEDIATELY
With that statement, Capt. Bean points out the gruesome theory that Mrs. Patty, whom the murderer shot, actually was dead for some time before he had her body thrown overboard.

It was during the search Monday that it was learned that his wife, already dead, had been unfaithful. Mrs. Scott, the mother of Mrs. Patty, is due here today from Juleburg, Colo., to assist Patty in making funeral arrangements for the dead woman.

**TALLMAN GONE
AS SHIP DOCKS**

(Continued from First Page)

room and slipped outside as the vessel was under way. A police car waited at the end of the pier with the object in view of alighting Tallman off the ship and spiriting him away from the crowd before the ship was made and the regular gangplank put out.

There were patches of darkness along the pier, however, which would have given momentary shelter to a slithering figure. Tallman was seen to slip into the water on the opposite side and make his way along the edge of the piling into the Embarcadero.

It also was a possibility that he leaped onto the waters of the bay after the ship had turned in through the Golden Gate. He would not have had to swim more than a mile to reach the San Francisco shore, and he was a swimmer, a good swimmer, would have had no trouble in cutting the water.

Misel, chief steward, said it was possible that Tallman had concealed a knife about his person while the two were eating dinner. It was virtually impossible to determine that fact without an extensive survey of kitchen material, as the possibility did not become evident until nearly three hours after dinner.

Tallman's father, Henry Tallman, a hotel employee in Oakland; his stepmother, Mrs. Tallman, and Francis W. Murphy, San Francisco attorney hired by the father to represent his son, all were at the pier. They were surprised when the word was passed along that Tallman was not aboard and evidently had escaped.

The escape was considered by Detective Lieutenant Connelley as a damaging admission on Tallman's part.

**COTTON APPOINTMENT
UNDER FIRE IN SENATE**

WASHINGTON, June 5. (AP)—Reconsideration of the confirmation of Joseph P. Cotton, New York attorney, as Undersecretary of State was demanded late today in the Senate by Senator Wheeler, Democrat, Montana. The nomination, approved early in the day in open session, was replaced on the Senate calendar by Wheeler's motion. It is understood that a program was made to the Foreign Relations Committee against Cotton because of his connection with the law firm of Cotton, G. McAdoo, which it received a retainer from Edward L. Doheny.

**Advertising by
Radio Overdone
Opines Official**

CHICAGO, June 5. (AP)—Mr. Herbert H. Frost, president of the Radio Manufacturers' Association, told the fifth annual convention of that body today that many radio programs contain too much advertising and that there was a strong probability that the coming season would see a revision of broadcast practice in this respect.

"Sales talks over the air do not build good will and they do lose listeners," Mr. Frost stated. "Station owners realize the folly of 'too much talk,' but many of them are unable to convince program sponsors. It is here that educational work is needed."

**ASSOCIATION APPROVES
MODOC RAIL PROJECT**

SAN FRANCISCO, June 5. (Exclusive)—Approval of the Great Northern-Western Pacific Railroad building project in Modoc county was voted by the directors of the Downtown Association here today and a copy of it forwarded to the Interstate Commerce Commission, which will pass on the application of the two railroads in the fall.

REAPPORTION'S FAILURE LOOMS

Amendments to Census Bill
Held Sure to Kill It

House Leaders Ponder Means
to Sidetrack Riders

Alien and Disenfranchised
Citizens Clauses Deadly

WASHINGTON, June 5. (AP)—Fear that the alien and disenfranchisement amendments that have been attached to the census bill would defeat reapportionment was expressed today as House leaders abandoned efforts to work out a plan for taking the two proposals out of the measure.

The House was adjourned to give the Republican Steering Committee an opportunity to work out a method of coping with the situation, but after a series of meetings leaders said they were no closer to a solution.

BOTH CAN PASS
Representative Tilton of Connecticut, the majority leader, said after the conference that he felt each of the amendments could muster enough votes to remain in the bill. If they remained in the measure, he added, the bill might be defeated.

In going over the situation leaders said heretofore there had been sufficient votes to assure passage of the House reapportionment bill. In passing bills in the past, however, it has been necessary to gain support of northern Democrats and those from southern States that would gain representation to offset the losses of Republicans from States that would lose members. With the alien amendment in the bill, Tilton feared, the support of the northern Democrats would be lost.

VOTES ALIENATED
Few members from New York, Massachusetts and Illinois are being counted on by leaders to gain support for a measure which would exclude aliens from a count upon which the new allotment of seats would be made.

Tilton said he did not expect Democrats from North Carolina, Florida and Texas to vote for the bill relating the Tinkham amendment which would exclude from the count all citizens over 21 years of age who are not permitted to vote.

Tilton feared that with these votes lost, due to the amendments, there would be enough additional members from Republican and Democratic States which probably would lose Representatives under reapportionment to defeat the bill.

THERE'S THE RUB
The Connecticut Representative believes that if the two proposals were combined they both probably would be beaten. The only way they could be voted upon together would be through the adoption of a special rule, however, and this is not considered feasible.

Under the rules of the House when the measure is taken up for consideration again tomorrow any member can demand a separate vote upon any amendment and it was thought probable that ballots would be asked on each of the controversial proposals.

RULES IN WAY
The next move then would be to send the bill back to committee for the purpose of making certain amendments. The two could be combined in such a motion but under the rules of the House this motion can be made only by a member who is opposed to the legislation.

Representative Rankin of Mississippi, the ranking Democrat on the House Census Committee, is opposed to the bill and is expected to seek to strike out the reapportionment provision altogether.

**Atlanta Prison
Warden Named**

WASHINGTON, June 5. (AP)—A. C. Adershold, acting warden at the Atlanta Federal Prison, has been named warden, succeeding John Snook, who resigned recently.

Adershold's promotion was in line with the policy of Atty.-Gen. Clegg to advance those in the service whenever possible. Adershold has been in prison administration work twenty-two years, being deputy warden at Atlanta before Snook quit following disagreements with Mabel Walker Willebrandt, assistant Attorney-General.

PARIS MAIL STRIKE ENDS

PARIS, June 5. (AP)—Postmen who struck yesterday for twenty-four hours, in sympathy with fellow workmen who were suspended for a month after a strike over uniforms and pay, returned to work today. The strikers are threatened with severe penalties.

BY MACDONALDPremier Acts on King's Call
to Form New CabinetChief Selections Laid Before
Ruler at Windsor CastleNegotiations With Hoover on
Debts Part of ProgramLONDON, June 5. (AP)—Ramsay
MacDonald, for the second time
Labor Prime Minister of England,
today accepted from King George
at Windsor Castle the mission to
form a new government and sub-
mitted the names of the principal
members of his Cabinet to His Ma-
jesty.Announcement of the Labor Min-
istry is expected Friday or Satur-
day. The filling of the minor Cab-
inet posts usually takes a few days
after the principal portfolios have
been allotted.Rumor continued busy with these
today in political circles, but noth-
ing is known definitely. One re-
port tonight said that Premier Mac-
Donald himself will take the Min-
istry of Foreign Affairs, consider-
ing the foreign policy to be the
cornerstone for success of his sec-
ond government.The actual ceremony of Mr. Mac-
Donald's visit to the King today
was as simple and as short as that
in which Stanley Baldwin yesterday
resigned his high office. There was
one difference, for His Majesty was
able today to sit up in a chair to
receive Mr. MacDonald, whereas he
had accepted Mr. Baldwin's resigna-
tion from his sickbed.The three physicians who have
attended His Majesty were pre-
sent during Mr. MacDonald's inter-
view. The new Labor Premier spent
a little more than an hour in the
castle, chatting with officials of the
household, and drove away with
Lord Dawson of Penn.

RETURN TO LONDON

He returned to London to con-
sult with principal Labor party
leaders.It is understood that the resign-
ing Conservative ministers will sur-
render their seals of office to the
King at Windsor Castle on Friday.
Members of the new Ministry are
expected to attend on Saturday at
the castle to receive the seals at the
hands of His Majesty in person,
this being a function in which
only the King is entitled to ac-
tivate.The new session of Parliament
will begin on the 25th inst., with the
swearing in of the members. No
business will be transacted, however,
until after July 1, next, and the
session will last only a few weeks.The Labor party's main legisla-
tive program will not be presented
until the autumn session.PARIS PAPER CITES
PLANS FOR NEGOTIATIONSPARIS, June 5. (AP)—Ramsay Mac-
Donald, the British Labor leader, is
quoted in the Petit Parisien today
as saying that the new Labor gov-
ernment expects to enter negotia-
tions with President Hoover immedi-
ately on the war-debt question as
well as that of disarmament.Inter-Allied debts and reparations
are two different problems and
must be treated separately, Mr.
MacDonald told the correspondents
of the paper in the course of an in-
terview granted a few minutes pre-
vious to his answering King
George's summons to the castle
with the task of forming a Cab-
inet."And concerning the former sepa-
rate question, the United States will
have much to say in examination of
a settlement," Mr. MacDonald con-
tinued. "Discussion of this will be
resumed on a new basis."FIRE AT SEA
ENVELOPED
IN MYSTERYShip and 700 Passengers
Reported Safe and Story of
Burning Now DeniedTOKIO, June 5. (Thursday) (AP)—
A mystery developed today regard-
ing the Japanese steamer Ugo
Maru, which yesterday was reported
as adrift off the coast of Kamchatka
with the fate of her crew and 700
passengers uncertain. Russian
sources deny that the vessel was in
any way endangered.The newspaper Jiji Shinbun had
a dispatch from Sapporo which
transmitted advice from Vladivostok
to the effect that Russian au-
thorities at the latter city declared
the Ugo Maru had arrived at her
destination on schedule. This word
is said to have reached Vladivostok
by wireless from the manager of the
Kamchatka fishing grounds. There
was, however, no confirmation of it
from other sources.The owner of the vessel at Kobe
said he had received no report of
any mishap to his boat. The Soviet
fishing trust representatives at
Kobe and Vladivostok likewise were
without news.The vessel was chartered to con-
vey about 700 Russian fisher folk,
many of them women, to the fish-
ing grounds off Kamchatka.Court Packed
for Opening of
Leadville CaseDENVER, June 5. (AP)—The cor-
ridors of the Federal Court Build-
ing were choked today by witnesses
and spectators gathered for opening
of the Leadville liquor case, involv-
ing twenty-four men and one wom-
an. Defendants include members
of the City Council and men promi-
nent in the famous mining town.Men in ten-gallon hats, miners
with their hands deep in high side
pockets and a few women came
down off the mountain slopes to
hear what the government of the
United States has to say about their
fellow-townsmen.Three Leadville Councilmen, the
city marshal, the acting night po-
lice captain and a former constable
are included among the twenty-five
defendants that appeared for trial
today.STAMP EXPERTS

today. Promptly at 8 a. m.
the stamp commemorating
the invention of the electric
light here fifty years ago
were placed on sale.Several hundred stamp col-
lectors, some from States as
distant as California, were
strung out before the door
of Sheppard's postoffice home
when he opened for business.
One buyer was Dewitt Ver-
mylee, who said he came
from Riverside, Cal., to get
some of the stamps for his
collection.PHIPPS HITS
AT SECRETS
OF PAPERSBill Offered in Senate
to Expose Ownership of
Publications FullyWASHINGTON, June 5. (AP)—At-
torney Postmaster-General Brown
transmitted to the Senate today
amended statements of ownership
of thirteen newspapers in testi-
mony in the Federal Trade
Commission's investigation of finan-
cial holdings in newspapers.
The bill, which would require
disclosure of the "real owner-
ship" of newspapers was intro-
duced by Chairman McNary of the
Postoffice Committee.The bill of Senator Phipps would
amend the present law so that in
addition to the names of stockhold-
ers, bondholders or other security
holders, the Postoffice Committee
may require such information about
the newspaper's ownership as it
may desire.The Federal Trade Commission
meanwhile announced the summon-
ing of three witnesses, Joseph F.
McGowan, Mobile (Ala.) financier;
Victor H. Hanson, proprietor and
publisher of the Birmingham (Ala.)
Herald, and R. B. Chandler, pub-
lisher of the Mobile (Ala.) Press,
to appear before it on the 14th
inst. in connection with its in-
quiry into power companies' finan-
cing of Alabama newspapers.The commission also has called
Ira C. Copley, California and Illi-
nois newspaper publisher, to appear
before it the 14th inst. This was
done at his own request after
charges of his ownership of public
utility securities had been made by
Senator Norris, Republican, Ne-
braska. Copley denied the asser-
tions.The original postoffice statements
of ownership, sent to the Senate
several weeks ago, showed that only
two of the thirteen newspapers
cited the International Paper and
Pulp Company or its subsidiaries
as holding a financial interest in
them. A third said A. R. Grau-
stein, president of the International,
had an interest in it. The re-
maining ten, all of which had been
mentioned in the Trade Commis-
sion's investigation, mentioned no
financial interest in them by the
International or its subsidiaries.New Earthquake
Hits ArgentinaBUENOS AIRES (Argentina)
June 5. (AP)—New earth shocks have

doza, unconfirmed reports stating
that many persons were killed and
injured in a quake at El Nevada
Hill.FARM-AID BILL
TO SUIT HOOVERNew Measure Has Debuture
Plan EliminatedHouse Expected to Pass Act
Without DebateDie-Hards in Senate May Stir
Up TroubleWASHINGTON, June 5. (AP)—A
farm-relief bill made acceptable
to President Hoover by the elimi-
nation of the export debenture plan
was agreed upon by the Farm Re-
lief Conference Committee today
and both Senate and House will be
asked promptly to approve it.Leaders at the Capitol hope that
the bill can be sent to the White
House before Saturday, but con-
flicting week-end plans of mem-
bers may delay final Congressional
action until next week.Approval of the bill reported by
the conference is expected to be
given practically without debate
by the House, which must act first.
Disappointment of the debenture
extremists in the Senate, however,
promises to occasion some spirited
debate before a vote on the con-
ference report can be reached in
that branch.

TWO DISSENTERS

Only two members of the con-
ference committee, Senators Norris,
Republican, Nebraska, and Smith,
Democrat, South Carolina, voted
against the motion to eliminate the
debenture section. These members,
who demanded a report of disagree-
ment on debentures so the House
would be required to vote upon
them, will join the group asking
rejection of the conference report
but administration leaders are con-
vinced they have sufficient votes
to defeat such a move.Both Senator McNary of Oregon
and Representative Haugen of Iowa,
chairmen, respectively, of the Sen-
ate and House Agricultural com-
mittees, expressed confidence that
the farm bill as agreed upon will
be approved speedily and will prove
efficacious. Senator McNary de-
scribed the measure as "a fine,
well-rounded-out bill," while Mr.
Haugen said he expected it to ac-
complish its purpose.

BOARD OF NINE

As now prepared for final Con-
gressional action, "the Agricultural
Marketing Act" would set up a
Federal farm board of nine mem-
bers, including the Secretary of
Agriculture, who would serve ex-
officio. The other eight members
would be appointed by the Presi-
dent to serve for six years at \$12,-
000 annually, the chairman to be
designated by the President.The measure aims the pro-
visions of both House and Senate
farm bills for commodity advisory
councils and stabilization corpo-
rations, the latter charged with buy-
ing up and marketing surplus crops
in an attempt to stabilize prices.A revolving fund of \$500,000,000
would be provided for the board
to use as it sees fit, and an ad-
ditional \$1,500,000 would be au-
thorized for administrative ex-
pense.

KURTZMANN

An Evening of Music!... At the Time, How
Delightful!... And the Memory, How Pleasant!How much even the glimpse of
a fine piano in a home be-
speaks... culture...
taste... refinement. And how
sought out is the home where music
finds an honored place.
The Kurtzmann has been a piano
of distinction for over three-quarters
of a century. Into this beautiful
instrument is built all the knowledge
and experience of craftsmen with
whom piano making is a lifetime art.
Little wonder then that the Kurtz-
mann is a "thing of beauty and a
joy forever."
A Kurtzmann "Baby Grand" is a
possession of which you would in-deed be proud! For sheer loveliness
in design, for surpassing excellence
of construction and finish, and for
charm and sweetness of tone, the
Kurtzmann is in a class all its own!
Strong claims! But you are in-
vited to judge them for yourself.
Come in and seat yourself at the
Kurtzmann. It demonstrates its
own merits. Then let us tell you the
modest outlay required to make a
Kurtzmann your own.
Lastly, our policy is considerate
... liberal. Our financial plan
makes purchase a pleasure as well
as a convenience. Let us tell you
of it!

SHORTTRIDGE TO BE TARIFF GUIDE

California Senator Charged With Farm Schedules

State's Agricultural Rank Dictates Choice

Plans to Avert Duplicating Hearings Adopted

WASHINGTON, June 8. (Exclusive)—Senator Shortridge was appointed today to two posts on the Senate subcommittee of the Finance Committee, which will handle the agricultural schedules of the tariff bill. Other members of this group are Senator of Utah, chairman of the Senate Finance Committee, and Senator of Indiana, Senate majority leader, for the Republicans, and Senator Harrison of Mississippi and Walsh of Massachusetts for the Democrats.

Inasmuch as California has a greater variety of agricultural products than any other State observes here that it is of the utmost importance that the State be represented on the agricultural subcommittee while the Senate is holding hearings on the tariff measure. They feel that the appointment of Senator Shortridge is recognition of this fact and will enable California to obtain necessary tariff increases.

FOUR GROUPS NAMED

Under the system announced today the Senate Finance Committee is split into four groups. The first, primarily of interest to manufacturers, has to do with three schedules. The second is the agricultural subcommittee which will consider four schedules, two of which, tobacco and beverages, have been assigned to Senator Shortridge, who will act as chairman at hearings on these products.

Group No. 3 will consider the textile schedules, five in number, while Group No. 4 embraces the tariff on books, sundries and wood. The free list will come up at a later date, probably to be considered by the full committee.

The full committee will meet on the 15th inst. The subcommittees will begin their work on the 15th inst. The subcommittee of groups will begin their daily hearings at 9:30 a.m., continue to 12:30 p.m., resume until 2 and meet again until 5.

At the first hearings the subcommittee on agricultural products will take up the sugar schedule. The manufacturing subcommittees will hold hearings on chemicals, oils and paints, while the textile group will meet with cotton manufacturers. The fourth group will take up papers and books.

WITNESSES ADVISED
In a statement issued today Senator Shortridge said: "All requests for hearings should be addressed to the chairman of the Finance Committee or to the chairman of the appropriate subcommittee. The committee will endeavor as far as possible to eliminate repetition and it is suggested that in order to save time of the witnesses and committee those having similar problems to present select witnesses to make their statements."

Senator Shortridge has already been working on these lines and has conferred with and wired a number of the large California agricultural interests. Several have agreed to follow the line of one witness to present two or more cases, as in the case of C. G. Tague, who will, at the suggestion of Representative Francis of Glendale, present the case of the citrus fruit growers to the agricultural subcommittee. Senator Wyman is in charge of the agricultural schedule and will act as chairman of this group when agricultural products come before it.

Chicago Will Enter Talking Picture Field

CHICAGO, June 8. (Exclusive)—Chicago is to have its own share of Hollywood's favorite industry, the talking pictures. Early in July production of sound pictures will be started by the Utah Tele-Screen Productions in a studio only a few blocks from the site of the famous Trianon lido where Gloria Swanson, Wallace Berry, Charlie Chaplin and others started on their celluloid paths to fame. A number of stage and screen actors already have been signed to make the first features.

Orlando R. Marsh, the Chicagoan who was an early experimenter in the electrical recording of sound, will have charge of the sound-recording. He now is supervising installation of equipment of the new studios at Argyle and Sheridan Road. All productions made under his direction will be of short length and will be known as "Moviettes."

Grape Situation Said to Depend on Assessments

SAN FRANCISCO, June 8. (Exclusive)—Although the future of the California raisin crop plays a major part in the reconstruction plans of the Federal Fruit Stabilization Corporation, the fresh grape situation is of no less importance, according to H. W. Wrightson, secretary of the California Vineyardists' Association. The requirement from the fresh and raisin grape growers, he pointed out, is the payment of assessments in the form of participation certificates of 2 cents and 3 cents per package on their shipments. This money is intended primarily to set up a reserve for establishing permanent credit with the government.

SIX PASSENGERS HURT WHEN BUS OVERTURNS

LINCOLN (Neb.) June 8. (AP)—Six persons were injured today when a Denver-Kansas City bus of the Trans Atlantic-Pacific Lines struck a culvert and overturned eleven miles west of Lincoln. Evelyn Brewster, 39-year-old schoolteacher of New Castle, Pa., and Mrs. L. E. Meyer, 66, of Long Beach, Cal., are in a hospital here. The extent of their injuries is not known.

WHAT IS A BUY-TWO SALE?
It is a sale where one article can be bought at the regular price, and a second article of the same kind can be bought at a slight increase over the price of the one article. Example: You buy the 50c Tooth Brush at the regular price, but during this sale you can buy two brushes for 51c. One bottle of Milk of Magnesia sells regularly at 50c—you can buy two for 59c. A sale made possible by quantity distribution and manufacturers' cooperation.

ORATORS READY FOR TRIP WEST

Intercollegiate Finalists Soon Coming to Los Angeles

Seven to Vie in Closing Clash Scheduled for 20th Inst.

Record Set by Number in Competition This Year

WASHINGTON, June 5. (Exclusive)—Within a few days the first of the seven finalists in the National Intercollegiate Oratorical Contest, conducted by the Better America Federation of California, will start for California to participate in the grand finale to be held in the Bowers Auditorium, Los Angeles, on the 20th inst.

These finalists have been selected through a long series of competitions among the largest number of colleges and universities ever brought together in one joint educational undertaking. Altogether 541 colleges and universities have taken part in the contest this year, which is the fifth one conducted by the Better America Federation of California as a contribution toward better citizenship.

SEVEN MAJOR ZONES

Under the plan of the contest, the nation is divided into seven major zones, within which the colleges compete until the spokesman for that particular zone is designated. Each zone champion is entitled to a place in the national finals held each year in Los Angeles. The federation offers \$2000 in cash, to be divided among the national finalists according to the following schedule: First prize, \$1500; second, \$1000; third, \$750; fourth, \$500; fifth, \$400; sixth, \$300; and seventh, \$250.

The competition at the finals this year is expected to be keener than in any previous year.

RECORD NUMBER

It is estimated that in this year's competition approximately 38,000 college students have taken part. This represents an increase of some 3000 over the participation of last year, which had established a record up to that time.

The orators, all of which deal with some phase of the Constitution, are limited to ten minutes. The finalists follow: Lee Kins, Southern University; William J. Miller, University of California; Robert M. Smith, St. John's College; Robert G. Goodwin, Wash. College; Lee B. Meron, North Carolina State College; Benjamin Upmeyer, Syracuse University; and John P. Moseley, University of Santa Clara.

DAM QUERIES BEFOG PARLEY

"Interpretation Complex" Hits Boulder Session

Arizona and California on Better Terms Now

Question of Surplus Water Puzzles Conference

WASHINGTON, June 5. (Exclusive)—The Boulder dam conference continued to give its attention today to the lower basin water question, with most of the discussion revolving around the 1,000,000 acre feet of flow estimated to be in the river over and above the 7,500,000 acre feet apportioned in the lower basin by the Swing-Johnson Act and the Colorado River compact. The conference will continue on the same point tomorrow.

Today's session was described by commissioners present as having supplied no progress beyond, perhaps, a better understanding by everyone concerned of "the other fellow's viewpoint," meaning that California and Arizona may have gotten a little closer together in realizing the motives that lie behind their respective attitudes.

SESSION LIVELY

The discussion was said to have been "lively," and to have hinged mainly on the question of whether the extra 1,000,000 acre feet of water taken into consideration by the so-called Donovan proposal, is so much surplus water or comes under another classification. If it were surplus, California would be entitled under the Boulder Dam Act, to half. The Donovan proposal, drawn up by Francis C. Wilson of New Mexico, gave California only 200,000 acre feet, and Arizona 800,000 acre feet. Regardless of whether it is surplus or not, however, the fact remains that it would give California the 4,000,000 acre feet she claimed throughout the Boulder dam fight in Congress last year to be the "irreducible minimum" she could accept, while at the same time boosting Arizona to something approaching the amount she has demanded. This being the case, the proposed new division furnishes ground for debate regardless of the fact it is evident no conclusions are to be made, and no agreement reached, at the conference now in progress here.

FARLEY IN MIDDLE

Every question put to the Reclamation Service, and every answer that has come up so far in the conference here has been subjected to so many demands for an "interpretation" as to render the entire discussion almost unintelligible, and practically worthless so far as pointing the way to a compact agreement.

The "interpretation" complex is general among the conference. Tomorrow Commissioner Maloney of Nevada plans to submit to the Reclamation Service a series of queries relating to its interpretation of several sections of the Boulder dam bill. Maloney's belief is that the way the project works out from the standpoint of water-power rights and other benefits, as spread among the Colorado River States, will depend very largely upon how the Interior Department chooses to administer the law. He believes that the project either can be made fair or unfair to individual States, as officials in Washington see fit. Therefore, he wants an advance statement from Dr. Elwood Mead, commissioner of reclamation, as to just how the Reclamation Service and Interior Department view certain sections of the bill, especially those relating to revenues from surplus power earnings in lieu of the taxes that would be collected if the project were a private enterprise.

Character

Character in men and in institutions is something far deeper than mere words, far more important than obvious actions. It is the foundation from which arise the motives that guide action and dictate speech.

In your selection of a banking affiliation, its character is vitally important. Your choice will be guided by factors more important than mere volume of deposits or impressiveness of banking quarters.

Clients of this bank are aware of the character that is inherent in the institution—an intangible asset which never appears on any balance sheet . . . yet it is of utmost importance in every banking transaction.

The leading bank of California Agriculture are everywhere met by the extensive service of this bank. Farmers know that our branches are ready to cooperate with them in every possible way.

FITZGERALD'S FOR THE IMPROVEMENT OF MUSIC

THE SHRINERS

By David Blinham

There is nothing too good for the Shriners. They own the town this week. They brought with them fine bands and their splendid chanters. Music has had a prominent part in all the festivities. Any organization that devotes so much thought to music is doing a real public service—and getting a lot of fun out of it, too. When the Shriners' program was arranged for the great meeting at the Hollywood Bowl last Sunday afternoon they chose for the official piano the **HARDMAN**.

There is nothing too good for the Shriners.

CHICAGO, June 5. (Exclusive)—A member of President Hoover's Cabinet soon may be called by the

Back of the project, which promises to evolve into a commanding factor in this flourishing young industry, are Lehman Brothers, New York bankers. One of the Lehman company is Col. Herbert Lehman, Lieutenant-Governor of New York State. The United company expects to absorb other tube manufacturers, devoting its entire attention to the production of tubes only.

Plans to current here at the Chicago Races are to make inquiries about this prospective new giant in the industry, and the plan of Secretary Davis, who is a hold-over from the old administration. It has been rumored in Washington that he intends to resign, but it is assumed that he will devote himself to the Moose Lodge, of which he long has been a moving spirit.

NEW ERA OF GOOD WILL

This development in the radio industry is a natural outcropping of the trend toward consolidation which seems to prevail at this year's show. Three of the merging companies have litigants in the famous tube case, *Radio Corp. of America v. A.S. Curtis*, now pending in the Federal Circuit Court at Wilmington, Del. In which the independent tube makers were unsuccessful in breaking down the restraints placed on them by the Radio Corporation of America that all radio sets manufactured under license from RCA must be equipped with tubes of Radio Corporation of America manufacture. The outcome of this case will determine whether independent tube makers have full rights to compete with RCA in the tube market, or whether the dominant corporation in the industry on the merits alone. This case is expected to be decided in the near future, and probably will be dropped soon by order of Judge Morris. The former litigants now are licensees of RCA, and will be in the Radio Corporation of America, just as are about thirty-five other producers of tubes and parts and about half a dozen

The licensees who use the Radio Corporation of America patents are permitted to do so on a royalty basis. Latest of the set manufacturers taking out a license is Wap. William B. Bost, president of the Springfield, Mass., company, makers of the Barton set. The Radio Corporation of America purchased from the Michigan company certain valuable patents and in return granted it a license to use the Radio Corporation of America patents. This ended litigation that had been going on between the two companies for years—fight that even was carried to Congress on the score of trustfulness and monopoly in the radio industry.

HOOVER FELICITATES

Another factor contributing toward peace in the industry is the decision of the Radio Corporation of America last week to eliminate most of the royalty burden from the structure that incloses radio sets. Hitherto the licensees have paid a flat 7 1-3 per cent royalty on their sales, guaranteeing a minimum annual return to the Radio Corporation of America of \$100,000 each. The cabinet royalty now practically has been eliminated, and the saving will undoubtedly be passed on to the consumer.

Presidential recognition of radio's place in the industrial and social life of the nation came today in the form of a letter from President Hoover to Maj. Herbert Forst, president of the Radio Manufacturers' Association.

Please express my thanks to the Radio Manufacturers' Association and allied music industry," wrote President Hoover. "my continuing interest in the progress of this art, so that it may be used for pleasure, recreation, instruction and information of the people. Its service both present and potential to the national life should likewise be kept before the public as a permanent for constant public enlightenment and for the rapid formation of public opinion upon publications of the industry, a vital function in a democracy."

Asserted Liquor Ring Chief Gets Term in Prison

SAN FRANCISCO, June 5. (P)—A jury in Federal Court today found G. B. Ratto, asserted ringleader in a purported graft and liquor combine in Oakland, Alameda county, guilty of conspiracy to violate the National Prohibition Act.

Ratto was the first of some fifty defendants, including police officials, arrested by Federal authorities in Oakland, to be tried. Dick Gatto, who has been connected with Ratto, was found not guilty of similar charges by the same jury.

Ratto was sentenced to two years in Federal prison and fined \$1000.

COAST POSTMASTER GETS EUROPEAN TRIP

WASHINGTON, June 5. (Exclusive)—James B. Rickard, postmaster at Santa Barbara, has been selected by the Postoffice Department to carry on a special mission for that service in Europe. Mr. Rickard, has been in conference with department officials here for the last three days. What mission has been assigned to him has not been revealed. He will stop at the Seville Exposition during his stay abroad, and probably will return in late summer. Mr. Rickard is expected to sail within the week. He is accompanied by his family.

BUDAPEST (Hungary) June 5. (AP)—American sound films will be barred from Hungary until May 30, 1936, the National Cinema Owners' association ruled today, explaining the country can not afford to make the necessary alterations in its film theaters to conform to the new styles of talking films.

WASHINGTON, June 5. (P)—Assistant Secretary Jahnke of the Navy tomorrow will begin an air tour of naval establishments, which will take him through the South and up the west coast.

Flying in a trimotored transport plane piloted by Lieut. W. C. Tomlinson, who recently set a new sea-plane speed record, Mr. Jahnke will visit New Orleans, San Diego, Los Angeles, San Francisco and Mare Island, Cal., and Bremerton and Seattle, Wash.

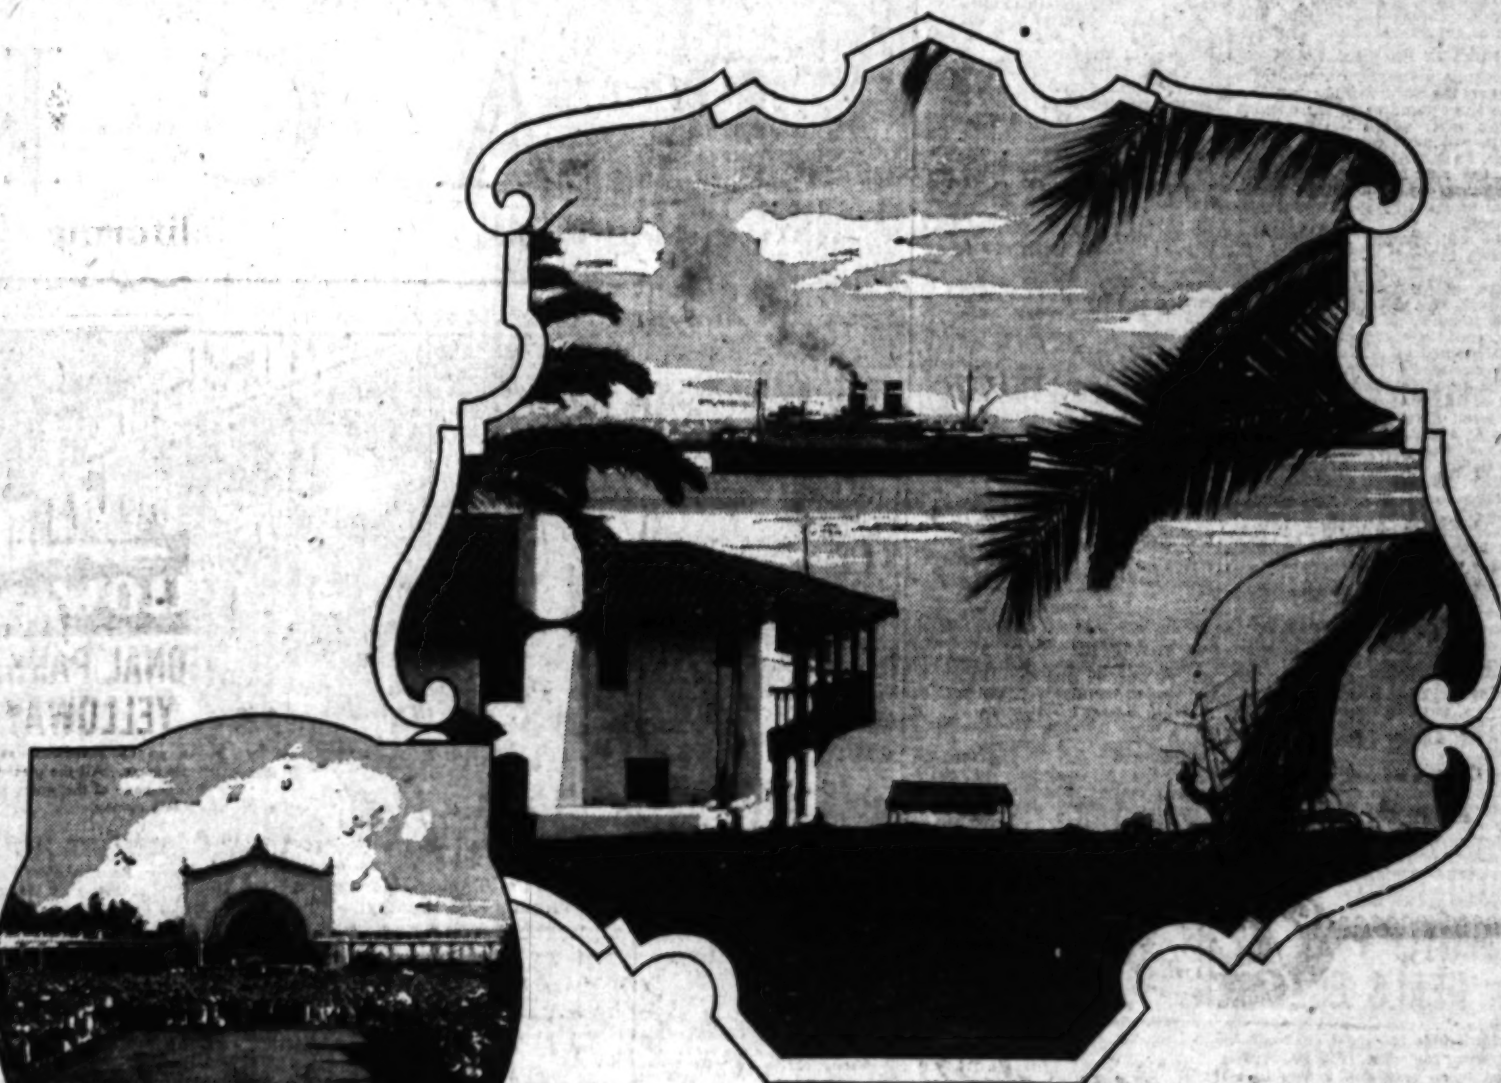

PAPER'S PLANT BURNS

PORT COLLINS (Colo.) June 5. (AP)—Fire of an undetermined origin today practically destroyed the plant of the Fort Collins Express-Courier, this city's only daily newspaper. The damage was not estimated.

WASHINGTON, June 5. (AP)—President Hoover has selected seventeen government and civilian engineers to represent the United States at the world engineering congress to be held next October at

The American delegates named by the President are: Elwood Mead, Commissioner of Reclamation; George Otis Smith, director of the Geological Survey; George K. Burgess, director of the Bureau of Standards; O. C. Merrill, secretary of the Federal Power Commission; Maj.-Gen. Edgar Jadwin, chief of army engineers; Scott Turner and John Hays Hammond, both of Washington; Elmer Sperry, Frank B. Jewett, John W. Lee, Maurice Holland, Daniel W. Turner, Byron W. Rogers, W. R. Rouse, all of New York City; John E. Freeman of Providence, Dugald C. Jackson of Boston and Mark Requa of Piedmont, Cal.

The congress will be held in the Near West for the first time instead of in Europe or in the United States as in the past. The object of the gathering is to effect an international exchange of the latest knowledge of the sciences and practices of engineering. It will open October 29 and close November 7.

*The best place
to live in **CALIFORNIA...**
is where you get the most out of life!*

Any day in the year in San Diego you can have a greater variety of outdoor sports and recreation than you'll ever have time enough to enjoy—winter and summer alike. There's Old Mexico with its picturesque surroundings and its own distinctive gaieties... Coronado and La Jolla and Mission Beach, representing social, cultural and seaside activities.... San Diego, in very truth, is a year-round playground!

Beauty everywhere you turn

Here you will meet the vivid blue of the ocean—the brilliant silver of sandy beaches—and mountains purpling in the distance. Lovely homes, shady avenues, miles of green lawns and sunlit gardens to smile a welcome! In the very heart of the city is a great scenic park, a tropical fairyland . . . There's beauty and to spare in San Diego!

Once here—you'll want to stay!

Thousands of visitors to San Diego never go away. They become permanent residents and prosperous citizens—finding that opportunities are more numerous in this fast growing seaport city of 160,000 than elsewhere. San Diego's population doubled since 1920.

This city's romance is the romance of early California—for here, where the Old Mission still stands, her history began. Old Town, too, is rich in relics of bygone days, and the hospitality of the old padres still lives and waits to welcome you.

Come now—to see for yourself!

The trip from Los Angeles is a 4-hour panorama of scenic contrast—through scented orange groves, thriving towns and fertile ranches to the seashore where, for many miles, the Highway borders the Pacific's edge.

Come by train, stage, steamship, airplane—or in your own car. You will be welcomed at the Chamber of Commerce Building and receive an illustrated souvenir booklet—or, you may write for it by using the coupon below.

TAGORE AMPLIFIES ON SNUB

India's Philosopher Tells Japan of Treatment He Received on Visit to Los Angeles

(Fred Hogue, member of The Times staff, is one of a group of American journalists visiting the Far East for a study of conditions under the auspices of the Carnegie Foundation. This is one of a series of dispatches he is sending back by mail.)

BY FRED HOGUE

TOKIO, May 14. (Exclusive)—Rabindranath Tagore is back in the Orient where the tongue of the people is his own tongue; where their faith is his faith; where their gods are his gods. He has abandoned the reserve that he wore like his cloak about him on the Pacific Coast and is speaking without restraint about his experiences among the western barbarians, the heathen.

To the Japanese of the Buddhist faith—three-fourths of the population—Tagore is a seer, a master, one about to enter the Nirvana of the gods. Some say that if he were politically inclined, he might lead the revolt of the East against the domination of the arrogant, vulgar, vandals of the West.

INCIDENT RECENT

Our reception in Tokio has been courteous, flattering. We have been welcomed with a cordiality that fairly bewilders us. But in the Japanese press, by the side of the laudatory articles concerning ourselves and our country, are other articles narrating the discourtesy Tagore received on the Pacific Coast, the humiliations thrust upon him. The resentment the Japanese feel is but half concealed.

To the Japanese press Tagore has exposed the still unhealed wounds he received during his brief sojourn on the Pacific Coast. He says that if he had not been misquoted so often, he would have preserved a dignified silence, that he have suffered in the solitude of Nirvana. But he now feels it his duty to speak, that others of his color and race may keep far from our shores, thus avoiding similar indignities.

SANDALS OVERBOARD

I have been told that even the sandals, sullied by the clay of Seattle and the adobe of Los Angeles, were cast overboard in the Pacific when the Taiyo Maru left the port of San Francisco.

There is a limit to the tolerance even of a holy man of India.

Tagore does not condemn our country on mere. He makes the reservation that the East is premeditated with a certain degree of culture, some grains of wheat among the mass of crudity. But the West Seattle to Los Angeles and Los Angeles to Seattle, had my sandals, had taken leave of my friends and had no desire to cause a row.

NEW TEST NEEDED

This occurred in Seattle. Personally, my sympathies were all with the master. I am the opinion that in the future every civil service examination for a position in the Immigration Department should contain the questionnaire, "Are you acquainted with the importance of Rabindranath Tagore?"

The poet continued: "I came into the country, but my mind was not at ease. I went to Los Angeles, stayed there and lectured. But all the time I was impressed by the spirit in the air. The people seemed to be cultivating an attitude of suspicion and uncivility toward Asiatics. I could not remain under the shadow of such an insult. I took passage without delay. I have my friends, but the American people, but also respect for my own people, colored people. If they must meet such treatment in that country it is best for any self-respecting Asiatic not to thrust himself on its hospitality.

Had I entered the nation by its eastern gateway my reaction might have been different; but that does not mitigate the matter. I never would have had this come out, but the mischief has been done and I want the truth to be known. I was silent when reporters came to me in Los Angeles. I wanted to go away quietly and not create a scandal. I am not used to airing my grievances; it is undignified. But I had an American companion who felt the insult more keenly than I. He reviled the officers and crew and picturesque expressions I had never heard before. Otherwise it would never have come out.

Only here in the Orient can one appreciate the gravity of the humiliation which Tagore experienced. In the hall outside my room are ten pairs of sandals ranged by the door that leads to his apartment. No one here enters his chamber without first removing his shoes, for they are about to tread on a holy ground. If the Seattle official had fallen on his knees and bumped his head on the floor all would have been well. That would have been the least of the courtesy that should have been extended to Tagore.

But the greatest indignity was yet to come, and that came in the form of a reporter made disrespectful remarks about the sage's blue socks. That was "the last straw" of all. Nothing was left for the sage but to fold his linen duster majestically about his emaciated form and depart.

SEER INSULTED

Here is what Tagore consented to say about that incident for publication:

"Your American reporters are very strange. When I arrived in Los Angeles my friend, the president of a university, asked if I would pose for a newspaper photographer. He insisted on taking the picture of me showing hands with my friend. Then a reporter came to me. I happened to be wearing blue socks. The newspaper story emphasized the fact that an Indian mystic should allow himself to be photographed wearing blue socks.

"Why does such a country so treat the people of Asia, colored people, all strangers who come to her gates with open minds, that they get such an impression as I received?"

I have learned from other sources that the earlier humiliations would have been pardoned and the lecture course would have been completed. But Tagore is temperamental, like true genius in all times and all places, and when his blue socks were held up for public ridicule it was indeed, unclean, unforgivable.

Now Tagore's blue socks are the emblem under which the faithful are assembling to wreak vengeance on the Pacific Coast and double vengeance on my own Los Angeles.

By way of passing, Tagore wore white hose across the Pacific, but stalks majestically in sky-blue socks through the corridors of the Imperial Hotel.

GREEK PRESIDENT SWORN IN

ATHENS (Greece) June 5. (AP)—Admiral Kondouriotis took oath today as president of the republic. Premier Venizelos was expected to resign his ministry tonight and then to reconstitute the Cabinet to include several Senators.

When you Come to *LIVE* in CaliforniaCome to SANTA MONICA

Just spend one day in Santa Monica, and notice the many, many factors that contribute to your personal well-being.

On the *inspirational* side, there are the incomparable Santa Monica mountains tumbling down to the sea the placid expanse of Santa Monica Bay the towering Palisades the clean white beach the oak clustered canyons.... ephemeral cloud effects brilliant sunshine.... golden sunsets. Everywhere about you there is beauty and peace.

On the *practical* side, there is no traffic problem. Streets are wide—the widest in Southern California. Signal control is adequate and helpful; never a nuisance. You are safe, and your children are safe, on the streets of Santa Monica.

Stores and markets are remarkably up-to-date and prices are moderate. This is so noticeable that housewives come from neighboring cities to shop in Santa Monica.

Schools, churches, theaters, parks and playgrounds are all excellent. There is a beautiful, well-stocked library; a splendid Women's Club; all the leading service clubs for men.

Quick transportation by three interurban lines, by bus, and by five or six major boulevards to all the outstanding recreational and cultural attractions in Southern California. Within a radius of a few miles are:

University of California at Los Angeles	Bel Air Country Club
Occidental College	Los Angeles Country Club
California Botanical Gardens	Westwood Golf Course
Harvard Military Academy	Hillcrest Country Club
Loyola University	Rancho Country Club
Holmby College	California Country Club
Will Rogers Ranch	Westward Ho Golf Club
Bernheimer Estates	Municipal Golf Course
Pacific Palisades Chautauqua	Fox Studios
Bel Air Bay Club	Metro-Goldwyn-Mayer Studios
Uplifters' Club	Clover Field Airport
Riviera Country Club	Half a dozen Beach Clubs
Brentwood Country Club	Several Amusement Piers
Three Polo Fields, numerous parks, tennis courts, archery fields, etc.	Several Fishing Piers

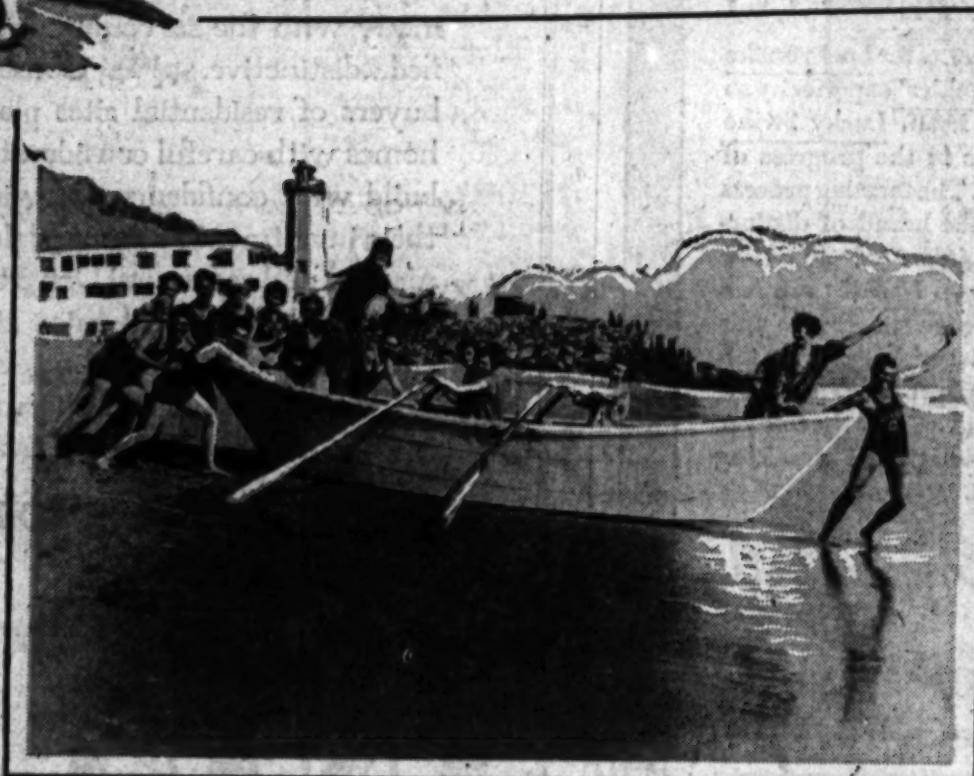

Plans have been promulgated for a great breakwater off Santa Monica to provide one of the finest water playgrounds in the world.

Santa Monica, connected with Los Angeles by the two proudest thoroughfares in California and by several other boulevards, is the closest-in area possessing all of these attributes.

SANTA MONICA

Population 50,000.
15 miles from Los Angeles by wide boulevards through the Southland's proudest residential sections.
Climate 16 degrees cooler in summer and 10 degrees warmer in winter than downtown Los Angeles.
Clean wide streets, beautiful parks.
Municipal airport.
Municipal golf links, tennis courts, archery field.
Country clubs within a few miles. Polo fields.
Wonderful beaches, several beach and swimming clubs. Amusement piers.
For summer ride to new universities.
Municipal form of government.
Municipal schools, churches, stores and hotels.
Municipal women's club.
Municipal cultural and civic enterprises sponsored by a high type of citizenship.

HOOVER'S LAW BOARD TO MEET

Enforcement Commission to Open Session Today

Government Officials Will Give Data on Crime

Treasury Secretary's Aide May Be First Witness

WASHINGTON, June 5. (Exclusive)—President Hoover's law-enforcement commission will meet tomorrow for its first working session since its appointment a week ago. Government officials in charge of departments having data on the causes of lawlessness and the extent laws are being obeyed through

TUNNEY MAY EMBARK ON LITERARY CAREER

HARTFORD (Ct.) June 5. (AP)—A possible literary career for Gene Tunney was predicted today by Mrs. Edwin S. Dewing, sister of the former champion's wife, the former Polly Lauder or Greenwich. Mrs. Dewing returned to West Hartford today after a two months' visit with Mr. and Mrs. Tunney at Brioni, Italy.

The nation will be examined in executive session at the first meeting. Seymour Lowman, assistant secretary of the Treasury in charge of prohibition, customs and Coast Guard activities, is expected to be one of the first witnesses called. Prohibition Commissioner James Doran and officials of the Department of Labor, which has statistics on aliens, are expected to give the commission statistics on which they can obtain a fair grasp

"He is, of course, very much interested in literature and spends a great deal of his time reading," said Mrs. Dewing. "It may be that some day he will put something down that he thinks is good and show it to a publisher. But he wouldn't care to do any writing unless it is good. He is the type of man who doesn't care to do anything unless he does it well."

All available data on the subject of law enforcement and crime are sought by the commissioners, Chairman George W. Wickersham stated.

BRITISH ADMIRAL DIES LONDON, June 5. (AP)—Admiral Sir Cecil Burney, 71 years of age, who topped a brilliant career in the British navy in 1930 with his promotion to admiral of the fleet, died today. He retired in 1925.

SOVIETS IN NEW CHURCH RULING

Letdown in Persecution to Become Effective

Order Will Benefit Russian Orthodox Groups

Baptists, However, Hard Hit by Change in Tactics

(Copyright, 1936, by the Chicago Tribune) RIGA, June 5. (Exclusive)—The Russian orthodox church has won an important victory against the Communist party in Russia, which has decided to reorganize its spiraling propaganda. Opposing churches on the petition of small groups of Communists and converting them into schools, clubs, show houses, or bathhouses has been a mistake, according to Comissar A. I. Rykov, addressing the open session of the congress of "Non-Communist"—the confederate Moscow.

Mr. Rykov, in his speech which was broadcast today, said that henceforth the government will not permit the confiscation of the churches unless the majority of the congregations approve, because such actions have caused riots which often have ended in the murder of Communists. The government's decision to modify its antireligious fight benefits the Russian orthodox church, but handicaps the other sects, since churches are forbidden to develop social welfare and educational work and religious books are permitted only on the church premises, where only purely religious meetings are allowed.

The Baptist church, which was not molested after the revolution partly because the church had been persecuted under the previous regime and the Communists hoped it would assist in undermining the orthodox church, was hard hit by the new ruling. The unusual success of the Baptists under Bolshevism who have more than 3,000 churches with 3,000,000 members, is the chief cause of this sudden reversal in the antireligious campaign of the soviet government, which discovered that the number of churches in all sects was growing instead of decreasing under the Communist persecution.

CANADA'S SUBSIDIZED SHIP LINES COST LESS

OTTAWA, June 5. (AP)—Subsidized steamship services in the fiscal year 1937-38 cost Canada \$28,107, a reduction of more than \$500,000 from the figure paid out in 1931-32, when \$781,787, was the cost of such subsidies, according to a statement today in the House of Commons by Bernard Reizner, secretary of state. He was replying to a question by E. W. Tobin, Liberal. Services are subsidized to South Africa, Brazil, Uruguay, Argentina, New Zealand, Alaska and British West Indies.

ARIZONANS GRADUATED TUCSON (Ariz.) June 5. (AP)—A graduating class of 238 seniors and thirty-one candidates received their degrees from the University of Arizona tonight in the commencement ceremony held in the campus amphitheater.

NOTICIAS MUNDIALES DE ULTIMA HORA

NOTAS TELEGRAFICAS

El Papa Declara Ciertas Opiniones de Mussolini

Ciudad Vaticana, Junio 5.—El "Osservatore Romano" publica esta noche una carta abierta del Papa al cardenal Gasparri sobre los acuerdos de Letrán, en la cual declara la santidad de ciertos principios contenidos en discursos pronunciados por el primer ministro Mussolini ante la cámara y el senado italiano, y que el Pontífice califica de "peores que heréticas, pues atentan contra la verdadera esencia del cristianismo y el catolicismo."

Contiene la carta una exposición completa de la actitud del Pontífice ante los discursos en que el Duce encareció a la cámara, el 12 de Mayo, y al senado, el 25 de igual mes, la aceptación de los acuerdos de Letrán.

El Papa defiende en su carta la doctrina de la universidad de la iglesia, y refuta la tesis implícita del primer ministro Mussolini, de que fuera Roma quien salvó al cristianismo, y no éste al Imperio Romano.

Implicítamente declara el Papa que la ley de la "Ley de la Antiquidad", obra que se halla en el índice desde 1912.

NUEVA YORK, Junio 5.—Un incendio ha destruido hoy uno de los monumentos más importantes del Boverry, que evocaba las glorias de este barrio un época en que era el centro de la vida nocturna de Nueva York. Nos referimos al viejo Teatro de Talla.

Dicho edificio, que tenía cinco pisos, y se levantaba en la intersección con la calle de Canal, ardió en forma tan rápida, que los fue imposibles a los bomberos salvar la construcción. Antes de tomar el nombre de Teatro de Talla, se le conocía por el de Teatro del Boverry.

CHICAGO, Junio 5.—Chicago ha decidido tener su parte en la industria favorita de Hollywood, la de las cintas fotográficas. Para principios de Julio va a comenzar a producir películas habladas la compañía "Utah Telo-Screen Productions", en un "estudio" sito a unas cuantas manzanas de distancia de los famosos solares de Broadway, donde empezaron a hacerse famosos los peluceros Wallace Berry, Gloria Swanson y Charlie Chaplin. Ya ha sido contratado buen número de actores de las tablas y de la pantalla para que actúen en las primeras vistas que aquí se hagan.

En las tablas de ese viejo coliseo introdujo la señora Mathews en América la ópera en inglés, y fue también en ese teatro donde se dio por primera vez "La Cabaña del Tío Tomás". George Fox fue quien presentó esta última pieza.

Los Salvo Apresan el Pacto de Kellogg

WASHINGTON, Junio 5.—Hoy se ha recibido aquí la noticia de que la segunda cámara del Consejo Nacional, en Berna (Suiza), ha votado en favor de la aprobación del pacto de Kellogg contra la guerra. Suiza se adhiere, pues, al referido convenio internacional. No hubo sino dos votos en contra.

NOTAS LOCALES

30,000 "Shriners" Visitarán Ayer los Estudios de Universal

Los mecanismos secretos de la industria pelicular, la manera de tomar las escenas con las cámaras, y el aspecto y los movimientos de los actores durante el trabajo; asuntos todos antes desconocidos para multitud de "Shriners", los son ahora familiares a unos 30,000 miembros de esas asociaciones, y a las esposas de los mismos, pues el día de ayer invadieron los "estudios" de Universal City, invitados por Carl Laemmle, presidente de la compañía cinematográfica que allí tiene sus reales.

La multitud de visitantes, todos de pintorescos fceas rojas, fue recibida con la más franca hospitalidad por la gente de cine. En cada departamento de los estudios se le dieron a los viajeros cumplidas explicaciones de los variados trabajos que en ellos se ejecutan. Durante el día de ayer, se quitaron todos los avisos que resan: "Se Prohibe la Entrada".

Intensona de Solicitud que Fracasó

Noah Jacobs, de 25 años, cansado de ser, como él mismo dice en una nota que dejó escrita, "un triste despojo flotante en el océano de la vida", se suicidó en su cuarto, en la casa número 1107 de la calle Siete Este, y abrió la llave del gas. Otros huéspedes descubrieron al suicida frustrado en su habitación antes de que el gas acabara con su vida.

Se le trasladó para tratamiento de urgencia a la Casa de Socorro de la calle de Georgia, y de allí fue llevado a la sala póstica del Hospital General.

WOMEN FIGHT BLOODY DUEL

One Perhaps Shot Fatally and Other Held

OAKLAND, June 5. (AP)—A hand-to-hand struggle between two women, ascribed over the affections of the divorced husband of one, culminated in the possibly fatal shooting of Mrs. Emma Bigelow, 35 years of age, mother of two children, and the detention of Mrs. Margaret Becker, 36, a divorcee.

Mrs. Bigelow, whom Mrs. Becker accuses of breaking up her home, was shot over the heart in the struggle which took place on an isolated road in the hills east of here. Leslie Becker, city fireman, over whom Mrs. Becker admitted she attacked Mrs. Bigelow, is said to have been present when the shooting took place.

Mrs. Becker told police she followed her former husband and Mrs. Bigelow to the hills and forced their car off the road late today. She drew a revolver, according to her story, and Mrs. Bigelow ran screaming into the brush where they engaged in a fierce struggle. In some manner, Mrs. Becker said, the revolver was discharged, the bullet entering Mrs. Bigelow's breast. The Beckers were divorced two months ago.

ONE DEAD IN PLANT BLAST

NEW ORLEANS, June 5. (AP)—An explosion today in the chemical plant of the Gulf and Valley Cotton Oil Company, up the river from New Orleans, killed one man and injured ten. The force of the blast blew an eight-by-twelve-foot hole through the roof of the chemical building 400 feet into the air.

BOYS IN GRAY SEE PAGEANT

Fifteen Hundred Take Part in Reunion Spectacle

CHARLOTTE (N. C.) June 5. (AP) Four thousand Confederate veterans turned tonight from festivity, business routine and oratory to witness the history they made depicted in pageantry.

The pageant, in which some 1500 persons participated, was the only event on tonight's program of the thirty-ninth reunion of the United Confederate Veterans here. It sketched in picture outline the rise and fall of the Confederacy and dramatic events of the war between the States.

Today the veterans, holding their opening business session, heard Gen. A. T. Godwyn, commander-in-chief, tell them an American history that "would do justice to all concerned" would show that the Civil War was a "valued economic war of industrial greed against the agricultural South."

MARY GARDEN TO SING IN QUAKER CITY OPERA

PHILADELPHIA, June 5. (AP)—Mrs. Mary Louise Curtis Bok, chairman of the board of directors of the Philadelphia Grand Opera Company, announced today that Mary Garden has been engaged to sing with the company during the coming season.

Why the A-B-A Cheque is the safest way to carry money

(1) You sign your name here when you buy A-B-A Cheques at your own bank.

(2) The sign appears here in the presence of the person who cashes the cheque for you.

(3) Always cash here for your own bank's cheque when you buy travel cheques.

Comparison of your two signatures to your identification. If cheques are lost or stolen before you sign the second time your money is protected.

MINA VOTING HELD VOID

After the Negroes at Houston Ruled On

But Says It's Contrary to Federal Constitution

After Ten Measure Once Before Knocked Out

(AP) June 5. (AP)—The Texas primary law, which held the election of June 5 void because of the participation of Negroes, was today ruled by the Supreme Court to be unconstitutional. The court held that the law was unconstitutional because it was discriminatory against Negroes.

CHICAGO, June 5. (AP)—The Chicago Tribune today published a long article on the Chicago election, in which it stated that the Chicago election was a "great success" for the Democratic party.

WASHINGTON, June 5. (AP)—The House of Representatives today passed a bill to amend the Federal Election Law, which would give the Federal Election Commission the power to investigate and punish any person who violates the law.

LOS ANGELES, June 5. (AP)—The Los Angeles Times today published a long article on the Los Angeles election, in which it stated that the Los Angeles election was a "great success" for the Democratic party.

You can't spade the garden with a Waterman's Fountain Pen

Waterman's fountain pen is the best fountain pen ever offered to a discerning public. The hand rubber holder is light, stainless and holds firm when you're writing. Every holder is scientifically balanced. This makes every writing a joy. Waterman's holds a lot of ink and may be filled quickly. Waterman's No. 7 is the newest and most interesting idea in fountain pens. There are different pen points to choose from—each identified by a different color band on the cap.

OFFICIALS OF AIRPORT ANNOUNCED

Grand Central Terminal Directors Name Spicer President

Other officers and directors of the Grand Central Air Terminal, Ltd., ownership of which was recently acquired by Curtiss Airports, Inc., were announced yesterday following the organization meeting of the board. C. G. Spicer, who developed and organized the terminal, was elected president and will be in charge of the company.

Other officers include J. L. Madrox, vice-president, who is president of Madrox Air Lines, Inc.; G. A. Spicer, second vice-president, a former Curtiss Airports, Inc., who has assisted in the development of the airport, and Richard W. Miller, secretary-treasurer, who is resident manager of Blair & Co. Inc., in New York City.

In addition to these officers, the directors are as follows: Donald Douglas, president of the Douglas Aircraft Company; W. D. Longyear, vice-president of the Security First National Bank; Clement Wilson of the Byron Jackson Company; C. C. Mosely, vice-president of the Curtiss Flying Service; Dr. T. C. Young, chairman of the aeronautical committee of California Development Association; Jacques Vincent, chairman of Pacific Western Oil Corporation board, and F. V. Gordon, oil operator. J. T. Kirby was elected assistant secretary and auditor.

The board authorized the building of a \$150,000 clubhouse at the terminal, and the construction of a sales and display exhibition building and discussed the reception program plans for the inception of the E. A. T. service July 1. William Crawford, vice-president of Curtiss Airports, Inc., of New York, attended the meeting.

Mines Trio on Trading List of Curb Mart

Stock of Sugarman Mines, Inc., Gold Ace Mining Company and United Vanadium Corporation have been approved for listing by the governors of the Los Angeles Curb Exchange, Philip A. Leo, secretary and manager, announced yesterday. Sugarman Mines will be called on the board tomorrow and the others at a date to be announced later.

The curb exchange has also ordered the removal of the preferred and common stocks of Standard Products Company, Inc., owing to refinancing plans and listing of new stock. Silver-Land Mines, Inc., will also be removed pending a more favorable financial showing by the company. Both stocks will be stricken from the list Friday.

Sugarman Mines, Inc., has an outstanding issue of 1,775,000 shares of 10-cent par common stock out of an authorized issue of 2,000,000 shares. There are 1,500,000 shares of 25-cent par value issued and authorized of the Gold Ace Annex. United Vanadium has 13,303,211 shares of 25-cent par issued and 16,000,000 shares authorized.

TWO BUILDING-LOAN CHARTERS GRANTED

Two new building and loan associations have just been granted charters by Commissioner George S. Walker, according to a report released yesterday by the California Building-Loan League. This brings the number of new associations licensed since the first of the year to thirteen and the number now operating in the State to 231. The associations just licensed are: Compton Building and Loan Association, Compton, Rex A. Dunn, secretary, with a paid-in capital of \$60,000, and the Independent Building-Loan Association, San Jose, George S. Campbell, secretary, with a paid-in capital of \$100,000.

CLEARINGS AT TUCSON SHOW SHARP INCREASE

TUCSON (Ariz.) June 5. (AP)—Clearinghouse transactions for May, 1929, were \$14,492,737, an increase of \$12,239,736 over May, 1928, according to figures released today. Building activity in Tucson, real estate transactions, general good business conditions and an extension of the normal tourist season into May were reasons given for the increase.

DURANT SHOWS PROFIT

NEW YORK, June 5. (Exclusive)—Durant Motors, Inc., and subsidiaries, announced today an operating profit for 1928 of \$644,307, against a loss of \$1,444,320 in 1927.

AIR DEVELOPMENTS PENDING

Prospects of Lockheed Expansion; Swallow Removal and Curtiss Activities Point to Growth

BY EARLE K. CROWE

Pending aircraft developments, which their materialize, should exert a major influence on the industry in Southern California. The reported sale of a substantial interest in the Lockheed Aircraft Company to an eastern group, forecasting possible expansion in plant facilities; the possibility of an announcement soon on the new Fokker plant here; and rumors of the removal to Los Angeles of the Swallow Airplane Company and units affiliated with the Curtiss-Kays group, are the interesting bits of gossip in circulation.

As reported from Detroit in new-ticker dispatches, a group associated with Ford, General Motors and banking houses in St. Louis and New York, is negotiating for the purchase of an interest in Lockheed. The same group, it is reported, has acquired the Ryan-Mahoney Aeronautical Company of St. Louis, and has organized a new company to hold the assets of the companies purchased.

EXPANSION LIKELY

Nothing is said in the Detroit dispatches of cash payments to the Lockheed company under the proposed purchase, but it is assumed that the new interests would be prepared to finance an expansion program in the plant facilities here.

The ramifications of the proposed purchasing group should, moreover, open up an enlarged sales field for Lockheed planes.

Swallow Airplane, now manufacturing in Wichita, Kan., is one of several manufacturers reported to have a Los Angeles location under consideration. This is one of the older companies in the field, having been organized in 1919, and is now operating on a schedule of four planes daily. Unfavorable weather conditions in the Middle West, such as windstorms that interfered with the commercial passenger lines the other day, are advanced as one of the chief reasons for the reported consideration of a new site.

CURTISS ACTIVE HERE

The importance of the affiliation of Curtiss Airports, a member of the Curtiss-Kays family of airplane companies, with the Grand Central Air Terminal at Glendale, should not be overlooked. It is understood that the Curtiss interests are drafting ambitious plans for the development of the Glendale project with the intention of making the Grand Central center of airplane activities in Southern California. It is not far-fetched to anticipate the shifting of manufacturing operations of several of the Curtiss-Kays units to Los Angeles.

In this group are such manufacturing companies, in addition to Douglas Aircraft, as Curtiss-Robertson Airplane Manufacturing Company, making the Curtiss-Robertson plane; Curtiss-Caproni, Inc., making airplanes and seaplanes developed by Gianni Caproni; Sikorsky Aviation Corporation, Curtiss-Kays Company and Command-Aire, Inc., Curtiss Flying Service, the training school to concentrate a considerable portion of its activities in Southern California. To conduct an intensive program of exploitation the Curtiss companies probably would have to erect either manufacturing or assembly plants here to handle the business.

New Aviation Issue Offered

Public offering of a new aviation security issue, consisting of 40,000 shares of 7 per cent cumulative preferred stock and 24,780 shares of common stock of Sierra Pacific Air Transit, is being made in units of two shares of preferred and one share of common at \$20 per unit by a syndicate which is headed by Kierulff-Buckley Company of San Francisco. It is understood that application will be made to list the shares on the San Francisco Curb Exchange on completion of present financing.

The company has been organized for the aerial transportation of passengers, mail and express between various cities and resorts of Central and North Central California. Capitalization of the company on completion of the present financing will consist of 50,000 shares of preferred to be outstanding from an authorized issue of 100,000 shares, and 100,000 shares of common, which is the entire authorized amount. Both preferred and common shares are of \$10 par value.

Board Marker Planned Here

Los Angeles Stock Exchange has on order an improved automatic board marker which will be installed on the trading floor of the new Stock Exchange Building. It was announced yesterday by Carl F. Miller, secretary and manager of the exchange, who has just returned from an inspection tour of eastern security markets with Samuel E. Lunden, architect, and Ralph Phillips, engineer.

The new device will be capable of not only recording sales in rapid succession on the exchange board but through a master key will be able to operate boards in any number of brokerage houses simultaneously. Several other new construction features will be incorporated in the new building, Mr. Miller stated.

American Water Utility Income Up

NEW YORK, June 5. (Exclusive)—American Water Works and Electric Company announced today a consolidated net income for twelve months ended April 30, last, of \$4,000,000 after all charges, against preferred dividends of \$2,825,000. This compares with \$4,000,000 in 1928, against preferred dividends of \$2,825,000. Gross income aggregated \$11,794,532, against \$4,958,403. April gross totaled \$4,887,102, against \$4,191,562 in April, 1928, and net earnings amounted to \$2,194,062, against \$2,071,345.

FIRESTONE TO STEP UP PRODUCTION

Expansion of Los Angeles Plant to Triple Present Output of Tires

Firestone Tire and Rubber Company of California, which will next week celebrate the first anniversary of the building of the initial tire in the Los Angeles plant, has produced nearly 1,000,000 tires to date and next year's production is scheduled to be 3,000,000, an increase of 300 per cent over the first year's output. E. Cope, vice-president and general manager, said yesterday.

The present daily production is 5000 tires and 7500 tubes, a crease of 100 per cent over the daily output six months ago. While the first tire was made at the plant on June 17, 1928, the factory was not formally opened until last December.

Under expansion plans which will double the plant in size and capacity by the end of this year, the average daily production will be 12,500 tires and 18,000 tubes and the annual payroll will reach approximately \$5,000,000.

Both the domestic and export tire markets for the Los Angeles plant will be increased and in the United States all western plants that can be reached at lower freight rates than obtain from Akron will be supplied by the new plant.

Throughout the Pacific area will also be handled almost entirely from Los Angeles, with the exception of such British possessions as are more conveniently served by the Firestone Canadian plant because of tariff differentials.

Lockheed Plane Merger Report in Ticker News

Inclusion of the Lockheed Aircraft Company in a new company formed to take over the Aircraft Development Company, Schiele-Brook & Co., and Ryan-Mahoney Aeronautical Company was reported yesterday from Detroit over the New York Times ticker.

The new company, it was stated, will have a capitalization of 1,000,000 shares of no par value, of which 500,000 shares will be offered to the public at around \$15 a share. The stock is said to have been already oversubscribed.

Tentative plans, according to the report, call for the exchange of 1-1-3 shares of the new company for each share of Lockheed. The proceeds from the sale of the 500,000 shares, it was explained, will be used to acquire the assets of Aircraft Development Company, Schiele-Brook & Co., and several others.

Interested in the new company, according to the Detroit story, are individuals identified with Ford, General Motors, Chrysler, Hudson, and banking houses in St. Louis and New York.

F. E. Keeler, president, and Ben S. Hunter, executive vice-president of the Lockheed company, have been in Detroit for the last week.

Brokerage Unit Changes Name

E. C. Brace & Co., brokerage house, has changed its name to Brace, Wade & Co., and has entered into a partnership with Don D. Wade, for the past four years sales manager for Edwards & Willey Co., formerly of Los Angeles, under the name of the company, announced yesterday. The change in name is effective immediately.

Mr. Wade has been active in banking and security circles before joining the Edwards & Willey Company. Prior to coming to California a number of years ago, he was associated with a well-known eastern corporation as secretary and credit manager.

INJUNCTION GRANTED IN NEON PATENT SUIT

NEW YORK, June 5. (Exclusive)—Judge T. D. Thatcher of the United States District Court, Southern District of New York, today granted a motion in favor of Claude Neon Light Co., Inc., holding the Neon Photocell Patent No. 1,254,074, for the manufacture of neon electric signs, and granted a preliminary injunction against Photocell Instrument Corporation, Photocell Electrical Corporation, Million Bergstein, Benjamin Diamond, and Eugene Quarrie.

ROYAL TYPEWRITER PLANNING SPLIT-UP

NEW YORK, June 5. (Exclusive)—Stockholders of the Royal Typewriter Company at a special meeting to be held July 1 will vote on increasing the no par common stock from 124,852 to 269,704 shares and on splitting the stock two for one.

It is also proposed to give the \$100 par preferred stock two votes per share to maintain equal voting power of the respective issues.

GUARANTY TRUST TO CUT MELON

Directors Propose New Issue With Privileges to Stockholders

NEW YORK, June 5. (AP)—Directors of the Guaranty Trust Company of New York today proposed an offer of 200,000 additional shares of stock to stockholders at \$500 a share which, on the basis of present market quotations is equivalent to cutting a melon of nearly \$90,000,000.

Directors voted to increase the authorized capital to \$90,000,000 from \$70,000,000, and to offer stockholders of record June 24 rights to subscribe to a share of stock at \$500 per share in the ratio of one new share for every 3 1/2 shares now held.

The stock, which has a par value of \$100 per share, was quoted on the over-the-counter market today at \$1038 bid, \$1040 asked. On that basis, the rights are worth approximately \$125 a share. A meeting of stockholders was called for June 24 to approve the proposal. Of the \$100,000,000 which the sale of the stock will yield, \$50,000,000 will be added to capital and \$50,000,000 to surplus, which will bring total surplus up to \$170,000,000.

Also, the directors declared a quarterly dividend of 55 per cent, placing the stock on a \$20 annual dividend basis, against \$18 previously.

New Interests Buy in Control of Oil Company

NEW YORK, June 5. (AP)—Contemplated changes in ownership and management of the Transcontinental Oil Company of Tulsa, Okla., including the election of Amos L. Beatty, former head of the Texas Corporation, to the chairman of the board, was announced by F. H. Parriott, president, today.

He explained that a new group, in which Mr. Beatty is prominent, has been organized to acquire the preferred stock held by the Standard Oil Company of New York. "It is contemplated that new directors will be elected from the purchasing group," he said.

Mr. Parriott stated that the board of directors has under consideration certain changes in capital structure, in that a call for a stockholders' meeting, with letters explaining the proposed changes, may be sent to stockholders in a few days.

Chrysler Elects Two Directors

DETROIT, June 5. (Exclusive)—E. F. Hutton and Waddell Catchings of New York were elected directors today of the Chrysler Motor Car Corporation at the annual meeting held here. They fill the vacancies caused by the resignations of G. W. Mead and D. R. McLain. All officers were re-elected and J. S. Baer added to the list of vice-presidents.

Mr. Chrysler, chairman, stated that while a seasonal recession in the demand for automobiles is to be expected at any time there has as yet been no indication of a slackening in the demand for Chrysler products. "There is every prospect that the corporation's business for the second quarter of this year will exceed all previous records," he said.

Trading Light on London Mart

LONDON, June 5. (Exclusive)—Stock market quiet today due to absence of many of traders who were attending the derby at Epsom Downs. Industrials were quiet. Talking machine issues were steady, with Columbia Graphophone higher. Tobacco steady; artificial silks easier; textiles mixed; International Nickel well supported; Dunlop easier; oil firm, with leading issues in good demand; mines irregular, with Mount Thibault and Rhodesia still active; rubbers dull; Ford Motor Ltd., held around \$3 1-2.

The gilt-edged list was well supported, home rails were easy. Argentine rails quiet; foreign securities quiet.

PACIFIC EQUITIES RAISES DIVIDEND

SAN FRANCISCO, June 5. (Exclusive)—Directors of Pacific Equities, Inc., at a meeting held today, raised the annual dividend rate from \$3 to \$3.40 a share and declared the new regularly quarterly dividend of 80 cents a share payable the 30th inst. to stockholders of record the 15th inst. The past two quarterly payments were at 50 cents a share with an extra of 30 cents a share.

PASADENA BOND CLUB ELECTS NEW OFFICERS

H. W. Hurry, representative of the Harris Trust and Savings Bank, Chicago, was yesterday elected president of the Pasadena Bond Club. Other officers elected for the ensuing year include E. W. Adams, vice-president of the John M. G. Marble Company; C. Balch, secretary of E. H. Rollins & Sons, and A. E. Abernethy, treasurer of Drake, Riley & Thomas.

RESERVE AIMS DEVELOPING

Effort to Curb Demand for Stock Market Credit Held Forerunner of New Fixed Policy

BY JOHN F. SINCLAIR

(Copyright, 1929, by North American Newspaper Alliance)

NEW YORK, June 5.—What is the Federal Reserve System trying to do? It is a question often asked. For the full meaning of the Federal Reserve policy is not yet realized in the United States. Make no mistake. A definite program is being developed, and when it is understood it will show the Federal Reserve Board as the power behind the credit structure of the United States.

Naturally, the Federal Reserve system did not operate normally during the war, or for a decade after the war, because there was a sympathetic handling of credit to meet refunding of United States government obligations.

But those happy-go-lucky days are over. A few factors already are in evidence. (1) The Federal Reserve Board, and not any of the twelve banks, is to direct credit policy in the future, as a central banking authority. (2) The board at Washington ultimately will fix arbitrarily the volume of credit each of the twelve Federal Reserve banks will be

Douglas Aircraft

United orders now over \$5,000,000. With increased production facilities, it is confidently expected that 1929 earnings will exceed earlier estimates.

U. S. Government is largest customer. Plans pending for aggressive entry into commercial aviation.

All net earnings go to common stock. No dividends or preferred stock.

United Gas Company

What consideration is given to the immense reserves accumulated by this Company—the steadily growing demand for natural gas in the territory served, particularly in Houston, one of the fastest growing cities in the country, the rapid development of the resources of the land, and the capable and experienced management? It is apparent that United Gas Company occupies a most advantageous position in the natural gas industry.

The common stock of United Gas Company has, however, shown potential possibilities for enhancement in market value.

LOS ANGELES EXCHANGE

Stock Prices Turn Irregular as Trading Activity Slackens Pace Again

Hampered by a sharp reduction in the volume of trading security prices moved in an irregular fashion yesterday on the Los Angeles Stock Exchange. The quiet session indicated a disposition on the part of traders to withhold operations for the time being, and a number of issues that showed upward over the past two days dropped back slightly in the lack of strong buying support.

Standard of California, reacting between 29 3-4 and 30 1-2, Byron 1 3-8 points to 76 1-2, was the signal to curtail trading on the petroleum board. Only 200 shares of Standard of California were traded in the absence of further dealings in the stock held firm at 43 1-2. Rio Grande, the most active issue, yielded 3-8 to 32. Union of California was steady at 48 1-4. No other major oils were traded. Pacific Eastern, on a board lot, advanced 5-8 to 16 3-4.

Douglas Aircraft led the activity in the balance of the list and closed firm at 39 1-2 after ranging 3 1-2.

LOS ANGELES CURE

Lockheed Aircraft continued to dominate the trading activity yesterday on the Los Angeles Curb Exchange and after touching a top at 21 5-8 dropped off in the late afternoon to close at 18 7-8, off 1-4 net. The brief trading in this issue was accentuated by reports that merger negotiations had been consummated. None of the reports, however, received any official confirmation.

The balance of the list after an early display of strength closed in a mixed fashion. Western Air Express, on a light turnover, shot up 3 1-2 points to 72 1-2. Pacific Equities, despite the announcement of a dividend increase, slumped 4 1-4 points to 44 3-4. Claude Neon Electrical Products advanced 1-1-4 to 58 points and Claude Neon of New York, 1 1-2 points to 40 3-4.

Hancock Oil was again strong and on a brisk turnover advanced 3-4 point to 66. Oils were fractionally improved for the most part.

Sales totaled 110,488 shares valued at \$679,548.

CHICAGO STOCKS

CHICAGO, June 5. (AP)—Following is the complete official list of transactions in stocks on the Chicago Stock Exchange today:

COTTON MARKET

CHICAGO GRAINS

CHICAGO, June 5. (AP)—Impressive broadening out of selling today swept the wheat market here downward, partly owing to recent gains in prices. Northwest standing wheat from Washington that a full \$200,000,000, plus \$1,000,000 additional, is provided in a farm "bill" bill served upon today by Senate and House conferees, friends of higher prices found themselves at a disadvantage, and unable to make any lasting headway. A few wheat buyers for the market, however, were able to secure a few wheat contracts in great measure to anticipate the market's reaction to the news. The market was somewhat unsettled by the news, but the price of wheat was not affected. The price of wheat was not affected.

COTTON MARKET

CHICAGO GRAINS

CHICAGO, June 5. (AP)—Impressive broadening out of selling today swept the wheat market here downward, partly owing to recent gains in prices. Northwest standing wheat from Washington that a full \$200,000,000, plus \$1,000,000 additional, is provided in a farm "bill" bill served upon today by Senate and House conferees, friends of higher prices found themselves at a disadvantage, and unable to make any lasting headway. A few wheat buyers for the market, however, were able to secure a few wheat contracts in great measure to anticipate the market's reaction to the news. The market was somewhat unsettled by the news, but the price of wheat was not affected. The price of wheat was not affected.

BAYLY BROTHERS, INC.

SERVICE TO TRADERS

Service to traders is a very definite quantity at Bayly Brothers...service in the prompt execution of orders in all the important markets...in furnishing timely information covering stock market movements...in analyzing your trading position...in all the many factors that make for successful trading.

Possibly you are seeking the character of service Bayly Brothers is rendering to a constantly expanding clientele. If so, we will value the opportunity to serve you.

50% INCREASE IN NET EARNINGS

BYRON JACKSON CO.

Consolidated net earnings of Byron Jackson Company and subsidiaries during the first three months of 1929, amounted to \$304,000 or more than 50% greater than the same period of 1928, a remarkable indication of the strength of this leading manufacturer of pumps and oil tools.

Company has only one class of stock and no funded debt, and is the outgrowth of a business founded in 1872. Its stock is listed on the Los Angeles and San Francisco Stock Exchanges and represents an outstanding long-term investment opportunity.

We have available for public distribution a detailed 14-page brochure describing the Company and its interesting history. For free copy, simply mail coupon below with your name and address.

DRIFT IN STOCK TRADING LOWER

(Continued from Fifteenth Page)

were lost in the final deals. General Motors and Hudson both sold up a point or so, and Auburn jumped a point to a new peak only to fall back about 6 from the top. Coca-Cola, Fleischmann, Royal Baking and National Biscuit made fair gains, the last jumping about 1 point.

Merchandise shares were irregular. Safeway stores making an extreme gain of about 7 points, while Woolworth and Montgomery Ward dropped 3 and 4 points. Case Thrashing mounted 10 points, then lost its gain. Motor Products sold up 1/2 point, regaining yesterday's loss, and General Cable "A" rose more than 3 points. Otis elevator jumped 7 points to a new top, regaining the advance in building contracts last week. Oils were generally inclined to heaviness, although Transcontinental was well bought on reports of refinancing and the entrance of new interest into the company.

Some of the utilities encountered profit-taking, but Commonwealth Power jumped about 13 points to another new high. In sympathy with heavy buying of Commonwealth and Southern, Public Service of New Jersey mounted 3 points. The Associated Press price index of the twenty utilities was again carried to a new peak.

American Can, Alchison, Bendix Aviation, Burroughs Adding, Aero-Peak and Ohio, Curtiss Aero, Wright, United Aircraft, General Electric, Household Oil, International Harvester, Radio, and Westinghouse were among important issues falling back 2 to 4 points.

Commodity markets were generally heavy. Wheat fell back about 2 cents a bushel in profit-taking inspired by the failure of the Liverpool market to follow up the recent advance, and corn likewise sagged. Cotton sagged about 50 cents to a new low. Sugar was again depressed, raw sugar again dropping 1-32 of a cent to the lowest price since 1922. In the future market, July made another new low.

Foreign exchanges were dull and irregular, with sterling ending the day slightly higher. The rally in Japanese yen yesterday failed to hold, and it fell back 1-3 of a cent to near the year's low.

Mayor-elect Denies Sweeping Changes in Contemplation

SURVEY OF CITY NEEDS PLEDGED

Porter Deprecates Rumors of Overtures

Government Business Like Large Corporations

Removals and Appointments Alike Unconsidered

A careful survey of the entire city government with adjustments made as they are found needed will be John C. Porter's policy when he assumes office July 1, next, the Mayor-elect announced last night, in refusing reports that sweeping changes in every municipal department are planned by him.

While friends and family yesterday were still busy congratulating him on his victory, Tuesday, the successful candidate began preparations for a ten-day visit in a secluded mountain spot where he will go this morning.

"This has been a strenuous campaign. I need rest for the task confronting me upon assuming the office of Mayor, and I will get it during my ten-day sojourn in the mountains."

RUMORS UNFOUNDED
"There have been reports of drastic changes being contemplated by me that are not based upon fact or a knowledge of how I propose to run my office, which in the end is only the presidency of a large corporation."

"If a man is assuming charge of a business institution he certainly does not start at the beginning by firing all of his help, nor a great proportion of it. I intend my administration to be one based upon strictly business methods, which in the end is bound to be the most successful way to operate a city government."

NO POSTS CONSIDERED
Porter said that he has not considered anyone for any post whatsoever, even having not taken into consideration whom he will name as his secretary.

Co-ordination of effort between the police department, the police commission and the Mayor will be demanded by him, Mr. Porter said. Police Chief Davis' position in the new administration has been given no consideration by the Mayor-elect so far, he stated.

"It would be both unfair to me and to Chief Davis for me to state that he will be removed or that he can remain. There are to be certain demands as to policy, harmonious accord between him, my office and the police commission. It is a matter of whether Mr. Davis can measure up to the standards I will establish," Porter said.

ONE ASSURED
At least one member of the Police Commission, who was not named, apparently is slated to remain with that body regardless of what action the new Mayor will take, he said. He insisted, however, that practically all present governmental depart-

City's New Business Administrator

New Reigning Family
Mayor-elect Porter with Mrs. Porter and Lee Dunning Porter, their 8-year-old grandson.

ments will remain intact until his survey is completed.
"There are many weak places in the present city government. In many of them it may mean that the outright dismissal from service will be the only solution. On the other hand, it is possible that transfers in some cases may eliminate trouble now affecting the functioning of any given department."

"Economy must be one of the fundamental factors in running the government under my administration. It is probable that I will find that this fact will be responsible for most of the changes that are made after I have completed my survey," he added.

Porter heard himself acclaimed as the "man of the hour" by more than a score of speakers at a banquet given in his honor in the Elks Club last night by the Los Angeles Developers' Association, one of his hardest-working supporters during the campaign.

The Mayor-elect's victory at the polls was characterized by Dr. Gustav A. Briedleb as an "act of Providence," which brought forth a stormy ovation that lasted several minutes.
In addressing the more than 1000

BOY DROWNS IN PARK PLUNGE

Youth Sinks Unnoticed While Trying to Swim Across Griffith Pool

Robert White, 15 years of age, of 817 North Coronado street, was drowned late yesterday in the Municipal Plunge of Griffith Park, at Los Fells Boulevard and Riverside Drive. The youth was attempting to swim across the crowded plunge when he disappeared beneath the surface. In the crowd and confusion his drowning was not noticed until too late. Fire department rescue squad No. 1 worked over him with an inhalator for two hours before giving up. The body was sent to the morgue.

CULT GROUP AND LEADER ARRAIGNED

Mrs. Martin and Others Accused of Petty Theft Got Delay Until Tomorrow

Eunice McMullen Martin, cult leader, and four of her assistants were arraigned before Municipal Judge Chambers yesterday on charges of petty theft. Mrs. Grace M. Caldwell, Mrs. Martin's sister, who is an attorney and one of the group and requested time for the judge chambers granted the plea. Judge Chambers continued the case until tomorrow at 2 p.m.
Mrs. Martin, Mrs. Caldwell and Frederick W. Little all were arrested Tuesday evening at 1140 West Twenty-seventh street, during a meeting of a religious society. John L. Snyder and Bernard Byrn, also accused, were arrested later at their homes.
The charges against all five, who are directors of Mrs. Martin's Society of the New School of Applied Christian Psychology, were filed by City Prosecutor Nix yesterday. The charges are based on the organization's pledges that in return for an investment of \$2.50 they would receive \$100.

MORE TIME TAKEN FROM FREIGHT RUN

Delivery to be Made on Seventh Day Following Shipment at Chicago

Additional benefit will be reaped by Los Angeles freight receivers as the result of a joint announcement yesterday by the Union Pacific system, the Santa Fe and the Southern Pacific-Slack Island of cut of twenty-four hours in delivery service from Chicago to this city. Beginning the 16th inst. through freight, both carload and less than carload, will be given delivery the seventh morning following shipment from Chicago.

About a year ago the three transcontinental lines cut the Chicago-Los Angeles delivery time from the morning of the ninth day to the morning of the eighth day. The new time schedule makes a total saving of forty-eight hours that has been effected in the past year.
Rapidly increasing traffic between Chicago and Los Angeles and the desire of the railroads to co-operate with merchants in every possible way are declared by rail officials to be responsible for the faster time.

PARADES' CLOSE BLAZE OF GLORY

(Continued from First Page)

halted and knelt in salute to the royal box, in which the Imperial Potentates were seated.

Many of the brilliantly garbed parades were electrically illuminated with decorations and some of them carried illuminated floats designating their temples.

It required more than three hours for the column to pass in review. Forming at Washington and Figueroa streets, the column proceeded to Exposition Boulevard and thence on Menlo street to the Coliseum, through virtually a "sea of humanity."

ACTRESS WILL SEEK LOST HEALTH HERE

Elsie Janis, known the country over for her southern blues songs and her work on the radio, stage and screen, arrived yesterday on the Golden State Limited for a rest at her Hollywood home to recuperate her health following an operation in a Paris hospital.

"I have no definite plans for the future," Miss Janis said. "I am going to stay at home and rest."

Accompanying her were her mother and special nurse, both of whom attended her during her recent illness in Paris.

MISSING YOUTH FOUND AFTER SEVEN YEARS

Mystery surrounding the disappearance of a boy from Kansas, Wis., in 1922, was cleared yesterday when W. C. Allen, head of the police missing-persons detail, received word the missing youth has been located in a northern county and is headed this way with a traveling carnival show. Seven years ago, police received circulars from Wisconsin authorities stating Harold Ottman, then 12 years of age, had either gone away voluntarily or had been kidnapped by a man named E. Z. Wilson. Dispatches from the north yesterday revealed, according to Allen, that Ottman is traveling with Wilson, who holds a concession with the attraction.

WOMAN DIES AS TROLLEY HITS AUTO

Husband of Santa Ana Severely Hurt in Crash at P. E. Crossing

Mrs. Lillian Morris, 46 years of age, of 701 North Bristol street, Santa Ana, was killed instantly yesterday and her husband seriously injured when their automobile was struck by a Pacific Electric car at Central avenue and One Hundred and Tenth street, according to a police report.

The couple were traveling south on Central avenue and the red car was bound east on the intersecting street. Eyewitnesses reported the automobile and its occupants were hurled fifty yards.

When taken from the wreckage the wife was dead and the husband unconscious. At Georgia-street Receiving Hospital he was given emergency treatment for a fractured skull, then removed to the Seaside Hospital, Long Beach.

Continuing a spirited chase of several blocks, Henry Schuster, 27, of 2686 Vinton avenue, Culver City, was arrested and booked as a hit-and-run driver following a collision at Venice Boulevard and South Figueroa street that resulted in injuries to Theodore Kirksey of 728 Harter street.

According to Traffic Officer Rebel, Schuster drove through a stop sign, crashed into Kirksey's car, turning it over, and continued on his way without stopping. Rebel commanded another car and overtook Schuster. Kirksey was treated for minor injuries at Georgia-street Receiving Hospital.

THIRTY-EIGHT INJURED IN SIX HOURS RECORD

Thirty-eight traffic accidents causing injury to persons within six hours yesterday afternoon and evening marked high tide in motor casualties during the diverting of traffic for Starline crowd movements. One death and a hit-and-run smash are included in the list, the injuries in the remainder of cases being minor.

Y. Itomaga, 35 years of age, a Japanese produce dealer of El Monte, was injured fatally, while walking across Jackson and San Pedro streets. According to police, he was struck by a car driven by A. F. Cook of 3314 Englewood street, Eagle Rock. Itomaga's skull and chest were crushed and he died shortly after admission to Georgia-street Receiving Hospital.

A hit-and-run driver demolished the car in which were riding Manuel Hertz, 36 years of age, and Minnie, his wife, of 2816 Polson street. The collision was at Tenth and Los Angeles streets. Hertz and his wife were treated at the Receiving Hospital for minor injuries.

ASSERTED PRE-DRY LAW BAR RAIDED

Downtown Establishment Doing Rushing Business; Two Held on Charge

An oasis in the desert was discovered yesterday in the basement of a building at 1008 West Sixth street, according to Federal and District Attorney's dry agents. Re-assertion of the pre-dry law was made there as an old-fashioned bar was discovered and that Fred M. Eaton and Harry Wilson were arrested for violation of the national prohibition act.

Clyde Plummer, head of the District Attorney's dry force, reported that the City Prosecutor's office had declined to issue a complaint against the manager of the building, but that a complaint will be sought by the District Attorney's office.

Eaton and Wilson were arraigned before United States Commissioner Head and released on \$500 bail each for hearing on the 18th inst. Charges that a gambling outfit was found in the place are being investigated, it was stated.

BOOKS TO BE REVIEWED

Ten-minute book reviews of important new books will be given by Miss Gertrude E. Darlow this afternoon at 2:30 o'clock at the Central Library lecture room. These book talks, given on the first and third Thursdays of the month by Miss Darlow, will be completed on the 20th inst. for the season. Titles discussed may be borrowed or reserved at the literature department of the library.

NAVY PROMOTIONS MADE

Four Out of Five Captains to Become Admirals Graduates of Commands Here

Out of the five navy captains to be named today for promotion to rear-admiral by the Naval Selection Board, four are graduates of battle fleet commands here, according to authoritative information received in fleet circles yesterday. Interest of the entire Navy is centered on the selection board's appointment of five captains to be rear-admirals, seventeen commanders to be captains and twenty-three lieutenant-commanders to be commanders, although these selections will not be announced until after approval by the Secretary of the Navy, about the 15th inst.

The five officers to be selected for promotion to flag rank are expected to be:

Capt. Arthur J. Hepburn, now chief-of-staff to Admiral William V. Pratt, commander-in-chief of the United States Fleet; Capt. Thomas C. Hart, now commanding the Naval Training Station, Newport, R. I.; Capt. William D. Leahy, holding temporary rank of Rear-Admiral as chief of the Bureau of Ordnance, Washington; Capt. Lauchlin M. Overstreet, commanding the U.S.S. Wyoming, and Capt. John Halligan, Jr., commanding the scouting fleet aircraft squadrons. Other possible selections are Capt. C. M. Toser and Capt. W. R. Sexton. Capt. Hepburn, Hart, Leahy and Toser have all commanded battleships here, while Capt. Halligan

THANKS FOR BOND VOTES EXPRESSED

H. A. Van Norman Gives Statement Pointing Need of Funds for Department

H. A. Van Norman, general manager of the Department of Water and Power, yesterday issued a statement thanking the thousands of organizations, business houses and individuals that actively supported and worked for the adoption of the water and power bond measures at Tuesday's election.

"In view of the fact that both the power and water bonds received a majority vote, I feel that these two measures won a moral, if not an actual, victory," he said. "In all other matters of government under our democratic system the majority rules. In the matter of authorizing bonds it is necessary to obtain the consent of two-thirds of all the voters."

"The need for these two bond measures is just as pressing today as it was the day before the election. As each succeeding day goes by that need will become greater and greater."

"Our city possesses a municipal water system and a municipal power system, both of which are entirely self-sustaining. Voting the bonds would not have cost taxpayers a cent in taxes."

"These water and electric needs must be met—and met without delay. The people can be fooled, perhaps, once by those who attempt to frighten them by shouting 'taxes,' but I am sure that the people must realize that water and electric service are basic and imperative necessities which must be provided."

OBSERVATORY SITES PICKED

(Continued from First Page)

shop, in which apparatus for grinding the giant lens and for making some of the parts of the telescope mounting will be located, according to present plans, between the Guggenheim Laboratory of Aeronautics and East California street. It will measure 100 by 300 feet on the ground floor and will be 36 feet in height. Like the High Voltage Laboratory, it will be constructed of structural steel, concrete filled. A five-ton crane will be set over a section of railroad track that will run into the shop to provide transportation for the heavy telescope parts.

The optical shop, in which the giant lens will be ground, will be erected east of the machine shop and astronomical laboratory. With a floor space measuring 150 by 250 feet this building will, perhaps, be the most interesting of the three new astronomical units.

Due to the fact that dust particles might ruin months of labor in grinding a lens, every precaution will be taken in the optical shop to keep the air free from foreign matter.

PLANS BEING CHECKED

Separate grinding rooms, it is proposed in the initial plans, will be provided for the 200, 100, 84, 56-inch and smaller telescope lenses.

In the great testing hall, it will be possible to control the temperature within 1 deg. Fahrenheit.

The optical shop and machine shop buildings will be connected by the railroad track on which the heavy apparatus will be moved at the optical shop by a forty-ton crane.

The temperature problem is such in grinding lenses that it may be necessary to install a fifteen-ton electric refrigeration machine.

It is asserted that the plans now being checked may be altered considerably before they formally are adopted, but that even though they are completely altered, this city is assured of a group of buildings, which, used in conjunction with the 200-inch observatory, will facilitate astronomical research on a scale never before dreamed of.

PORTER WINS BY TOTAL OF 45,390

(Continued from First Page)

his decisive victory. And he is further assured that the respective members of the board hereby assure the Mayor-elect that it will be their pleasure and duty to assist him in making his administration a success and credit to the city.

Commissioner Werning was absent, the resolution being approved by Commissioners Werning, Laws, Rochester and Wilson.

The above selections provide for vacancies caused by retirement of Rear-Admiral Thomas Washington, who retires today; Rear-Admiral Philip Andrews, on March 31, 1936; Rear-Admiral Andrew T. Long, on April 6, 1936; Rear-Admiral Richard H. Jackson, May 10, 1936; and Rear-Admiral Henry A. Wiley, who will retire this fall upon his own request following expiration of four months accrued leave, beginning May 21, last, following his detachment as Commander-in-Chief of the United States Fleet.

DEDICATION SET FOR SYNAGOGUE

Magnificent Temple to Be Opened Tomorrow

Organ Recital and Paintings Presentation Scheduled

Elaborate Sunday Service Will Be Public

Magnificent Temple B'nai Brith, recently completed on Wilshire Boulevard, at Hobart and Harvard boulevards, at a cost of \$1,200,000, excluding the site, will be dedicated with an elaborate program tomorrow evening. At this service, and at the special service at 10 a.m. Saturday admission will be by tickets only, since it is expected that the membership will tax the capacity of the great auditorium which seats 2500. Another interesting service, to which the public is invited, will be conducted Sunday at 2:30 p.m. when a recital on the \$40,000 Kimball organ will be followed by addresses by Joseph Scott, Dr. E. P. Ryland, Dr. Ernest C. Moore, Bishop W. B. Stevens, Superior Judge Hollister, I. I. Lapatch, Dr. Herbert Booth Smith, Mrs. A. O. Shaurer and Rabbi E. P. Magnin, S. M. Neches, Ernest Trattner, Rudolph Lupo, Maxwell Rubin, Harvey Franklin and Julius Leibert. "Let us not say our temple is the most beautiful one of its kind in the world for, although that is true, it sounds boastful," said Dr. Magnin, rabbi of Temple B'nai Brith for the last fourteen years. "This grand structure is more than a work of art for it represents the loyalty and faith of a splendid congregation of 700 families. The institution will continue to further Jewish and religious education for young and old and to encourage and foster all worthy cultural, philanthropic and idealistic movements for the welfare of all the people of Los Angeles."

Dr. Magnin announced that the

speakers Saturday morning will include Rabbi Herman Lissauer of Temple Emanu-El, Rabbi S. H. Gordon of B'nai Israel, Salt Lake City, and Rabbi Samuel Koch of Temple De Hirsch, Seattle.

DEDICATORY PROGRAM

The dedication exercises tomorrow evening will begin with a recital by E. O. McAfee, on the Ka-pare and Huldah Cohn Memorial organ, donated by Mr. and Mrs. Ben R. Meyer and Mr. and Mrs. Milton Getz. Then will follow the pro-

cession of officials with the scrolls of the law and the depositing of the Torah scrolls in the ark by Rabbi Magnin, to the accompaniment of choral music. Marco Newmark will officiate at the lighting of the Perpetual Lamp, given in memory of Harris and Sarah Newmark. Following devotional services by Rabbi Maxwell Rubin, formal presentation of the new edifice will be made by George Mosbacher, chairman of the building committee.

Acceptance of the new temple in

B'nai Brith and Its Pastor. The edifice, one of most elaborate synagogues in the world, was just completed at cost of \$1,200,000. Inset—Rabbi E. P. Magnin.

behalf of the congregation will be made by Dr. D. W. Edelman, president of the congregation. Marco Hellman will present the Ark and Ark, which was donated in memory of Herman W. and Ida H. Hellman. Presentation of the Sam and Milton Warner mural paintings by Hugo Ballin will be made by Jack Warner. Then will follow words of greeting by Louis H. Mayer, Rabbi Louis I. Newman of Congregation Emanu-El, San Francisco, and Dr. H. J. Berkowitz, rabbi of Temple Beth Israel, Portland. Following a solo by Mrs. Monnie Hastings, the dedicatory sermon will be preached by Dr. Magnin. The program will be concluded by Kaddish and benediction by Dr. Magnin.

HAS THREE BUILDINGS

The new addition to the Southland's many fine homes of worship consists of three buildings, the general architecture being modernized Florentine symbolizing the old and the new, the past and present. The interior of the temple radiates an atmosphere of religion and mysticism, emphasizing the "beauty of holiness" and the holiness of beauty. The interior dome, patterned in part after the Pantheon, is practically limit height. Notable among the decorative features are stained-glass windows containing the symbols of the Twelve Tribes and other biblical themes, with gorgeous studies of outstanding scenes and events from the creation of the world to the thunders of Sinai.

The paintings by Hugo Ballin already have attracted attention of hundreds of art lovers. The Temple House consists of a large auditorium with standard equipment, temple offices, studies for the rabbi and director of religious education, ballroom, kitchen, sewing room and spacious clubrooms. The Sunday-school building is a two stories in height, contains twenty fine classrooms and is built around a patio with fountain, rare trees, shrubs and flowers. This building also contains the diamond Hecht Library which was furnished by Dr. Hecht's children.

FOUNDED IN 1882

The building committee consists of George Mosbacher, Louis M. Cole, Meyer Elasser, Sam T. Norton, Mrs. Fannie Wolfstein, M. H. Newmark, D. W. Edelman and Dr. Magnin. The architects are A. W. Edelman, Allison and Allison, consulting architects, and Sam T. Norton, honorary consultant.

Founded in 1882, Temple B'nai Brith not only is one of the oldest religious organizations in Los Angeles but is also one of the outstanding organizations which has contributed to the industrial, cultural, esthetic and general progress of Southern California. Among prominent spiritual leaders of Temple B'nai Brith Congregation were Rabbi Joseph Newmark, Rabbi Abraham Wolf Edelman and Dr. Hecht. Dr. Magnin, the present rabbi, in addition to his temple duties, finds time to serve with officials of a score of civic and charitable organizations and now is a member of the executive committee of the Community Chest. He is a prominent Mason and is nationally known as an orator and an original thinker.

Spence, Racing Driver, Will be Buried Today

Funeral rites will be conducted at the Little Church of the Flowers at 11 a.m. today for William Spence, 31 years of age, Los Angeles automobile race driver who was killed on the Indianapolis speedway Memorial Day. Burial will be in the family lot at Forest Lawn Memorial Park.

Mr. Spence, who was born in Los Angeles, began his racing career at 17. Last year he placed seventh in the Indianapolis classic.

He leaves his widow, Mrs. Vivian Spence, his mother, Mrs. Anna B. Spence, his grandmother, Mrs. Lena Sachs, and an aunt, Mrs. Robert Fairchild, all of Los Angeles. Ivy Overholser is in charge of funeral arrangements.

SHRINERS VISIT LIONS

Visiting Shriners from the following temples have made party trips to Gay's Lion Farm, near El Monte, this week: Mecca, New York; Moolah, St. Louis; Al Koran, Cleveland; Syria, Pittsburgh; Medinah, Chicago; Murat, Indianapolis; Aleppo, Boston; India, Oklahoma City; Bount, Baltimore; Ben Ali, Sacramento; and Aloha, Honolulu. Designed as a "lion taxi," Charles Gay, director of the farm, has mounted a pair of lions on a new phaeton, engaged a uniformed chauffeur and footman, and placed this unique car at the disposal of the visiting Nobles.

WHAT DO YOU GET FROM YOUR TRAVELS

To get full measure of the joys of travel, you should be free from care. You've doubtlessly arranged for your business and private affairs... but what of your household valuables? Will they be safe while you are away? Insure them... yes; but insurance

money could never replace most things. Wedding gifts, mementos, keepsakes, furs, rugs, silverware, furniture and other possessions... all are in danger of fire and theft if left unguarded in your home. In one of BEKINS fireproof contructed depositories they will be safe! A phone call to the nearest office, and our courteous representative will call and suggest the things to store and estimate the cost. Then trained BEKINS employees will quietly and efficiently place them in a clean, padded van for delivery to the nearest Bekins depository. It is really as simple as that... and getting your valuables back is just as easy.

Make This Your Most Enjoyable and Carefree Vacation.

Ask about Bekins Mothproofing Service for furs, rugs, upholstered furniture, etc. Store your furs in Bekins Cold Storage Vaults, to preserve and restore their sheen and lustre.

TROJAN LEADER RETURNS HOME

Will Not Defend Laurels in A.A.U. Meet

Gives Up Running Career as Leg Hurt Again

Praises Mates for Showing in Title Battle

BY RALPH HURTON

Charley Borah, Trojan track captain, has run his last race. The curly-haired sprinter, who will be graduated from the Southern California college Sunday, returned yesterday from Philadelphia and definitely announced that he was through with track.

Borah, as soon as he is graduated, will take the State Dental Board examinations, and then prepare to re-enter school in the Southern California medical school, where he will take such subjects as will fit him for his announced profession of oral surgery.

(Continued on Page 2, Column 5)

CHARLEY BORAH—PAST AND FUTURE

With his announcement that he has given up all track activity forever, Charley Borah, for the past four years one of America's foremost sprinters, and captain of the University of Southern California track team, is prepared to do four more years of intensive college study. For the last four, Borah has combined an arduous dental course with his sprinting. Now that the days of his college eligibility are over, Borah is going back to school for a four-year course in medicine, and will give up running entirely. The photo on the left is a familiar one to local track fans. That on the right is well known to his professors, and will be his only pose from now on.

Seraphs Put Over Lone Run in Ninth Inning

Loop Leaders Get to Plitt for Early Margin

Webb's Home Run With Bags Full Proves Foul

BY BOB RAY

Radiant Red Killefer's Mission Reds, who are so far out in front of the Coast League race that it takes 50 cents worth of stamps for the second-place club to even send them a postal card, got off to a good start in this so-called "cruel series" by thumping the Angels, 3 to 1, in the opener yesterday at Wrigley Field.

However, "Dead Pan" didn't get through to the ninth without experiencing a scare. In the third inning with the bases filled Earl Webb lined a ball over the right-field wall that looked for all the world like a homer. That would have meant four runs for the Seraphs and more than like-

DOYLE AGAIN ANGLES FOR WALKER-HUDKINS BATTLE

BY KAY OWE

The Mickey Walker-Ace Hudkins battle for the middleweight title again assumed "hot" proportions yesterday when Promoter Jack Doyle of the Olympic and Jack Kearns, manager of Walker, went into a huddle.

the invitation got lousier when he received a hurry-up call for a conference with Doyle. He dropped his game at the fourteenth hole, and dashed downtown to talk the situation over. It was reported that Doyle had boosted his ante for the match from 50 per cent to 60 per cent.

STARS WIN OVER SEALS

Gomez and Couch Pounded in Fifth and Sixth by Hollywooders; Shellenback Hurls Victory

SAN FRANCISCO, June 5.—The Seals pounded Frank Shellenback for nineteen hits today, but Frank finally weathered the storm and won his game for Hollywood, 9 to 8. He got timely help from his mates, who took advantage of Gomez's wildness and made their hits when needed.

The Seals scored twice in the ninth inning and had the tying run on first base when Babe Pinelli popped to Lee to end the game. Ed Coleman, the lanky outfielder, continued on his hitting rampage by getting four hits in five times up and boosted himself into the .400 class.

The Seals staked Lefty Gomez to a four-run lead early in the eighth.

Ed Meyberg Equals Par to Take Lead in Rancho Golf Club Invitation Tournament

HILLCREST GOLFER TOPS FIELD BY TWO STROKES

Paryear Pokes Out 72 for Second Place; Dave Martin to Play First Round Today; Competition Keen

BY EDWARD LAWRENCE

Ed Meyberg, Hillcrest Country Club champion, walked across the street yesterday afternoon and shot a par equalling 36-34-70 to lead a brilliant field in the first day of play of the Rancho Golf Club invitation championship.

Joe Paryear, manager of the Fox Hills Country Club, led the field for the major portion of the day with a 72. Danny Sampson, 18-year-old Potrero Country Club star, wound up in third place with a 75, while Johnny J. McCall of Fox Hills, W. L. Jelliffe of Glendale, E. D. Harry Robbins of Rancho tied with 78.

With two more days of qualifying play, today and tomorrow, the entry is expected to reach the 300 mark before the thirty-six-hole finals are played on Saturday and Sunday. Low 22 in the first division will qualify for the finals.

Among those who will qualify today are Dave Martin, 18-year-old California Country Club star and finalist in the Southern California amateur championship last month, and Leo Keller of Rancho, two hand-picked men. Both golfers are favorites to top the list tomorrow held by George (Jit) Van Ekin.

Other low scores in the championship flight were registered yesterday by Jack Mackey, Los Angeles Country Club champion, with a 74, Charles Seaver of Los Angeles with a 77, Chuck Ward of Brentwood, H. K. Badstuber of Stockdale and W. W. Beckwith of Rancho with 78.

Here is Meyberg's card:

Par (Out) 644 244 544-32
 (In) 244 244 544-32
 Par (Out) 644 244 544-32
 (In) 244 244 544-32

Paul Lewis, L. H. Lyons and Frank Greve divided first-day honors in Class C, 18 to 19 handicap, with 87. Jack Goldwater shot an 88 for second place.

D. G. Tomlinson, 18 handicap, made a record 91 to lead in Class D, 19 to 24 handicap. Following are yesterday's complete scores:

CLASS A 20 & S
 Scores for first division hole:
 1. Ed Meyberg, 72
 2. Danny Sampson, 75
 3. Johnny J. McCall, 78
 4. W. L. Jelliffe, 78
 5. E. D. Harry Robbins, 78
 6. Leo Keller, 78
 7. Jack Mackey, 74
 8. Charles Seaver, 77
 9. Chuck Ward, 78

MARATHON ENTRY INCREASES

Four More Southern California Leather-Lungs Swell Total to Fifty-five; Clarence DeMar's Appearance Attracts Distance Stars to Battle Famous Runner

(Continued from First Page)

From Sierra Madre to Orchard Camp, and believes himself in condition to stand a fast pace in the long grind. Mendocino piloted fifteen miles around Lake Arrowhead a few weeks ago, and was timed in 1h. 45m., which is exceptionally fast for the up-country trail he was forced to take, and for the atmosphere of the mile-high resort. The world's record for fifteen miles is 1h. 24m., and was established on a flat track in New York in 1918.

The complete entry list to date:

1. Clarence DeMar, L.A.C. (Cal.)
 2. Bill Martin, L.A.C. (Cal.)
 3. Bill Martin, L.A.C. (Cal.)
 4. Bill Martin, L.A.C. (Cal.)
 5. Bill Martin, L.A.C. (Cal.)
 6. Bill Martin, L.A.C. (Cal.)
 7. Bill Martin, L.A.C. (Cal.)
 8. Bill Martin, L.A.C. (Cal.)
 9. Bill Martin, L.A.C. (Cal.)
 10. Bill Martin, L.A.C. (Cal.)

YOUNGSTERS TO BATTLE FOR FAMOUS DAVIS CUP

NEW YORK, June 4. (AP)—One of two fairly definite plans of campaign stood out today as the American Davis Cup tennis team made its bid here to win the famous trophy now in Paris.

Harring accidents, George Lott and Johnny Hennessey are to get the honors they were denied in the fourth year of the Davis Cup. Lott, a year ago and will take the court in the Davis Cup doubles engagement with the French and much to be made of a half in advance, although the Davis Cup is a mystery which has not yet been solved and it is likely that Capt. Doherty does not know the answer.

DEMPSEY AWAITS OFFER FOR AGUA CALIENTE GO

The status of the proposed Agua Caliente (Lower California) bout is indefinite, Jack Dempsey declared yesterday.

"I do not know when we will resume conferences at Agua Caliente," he said. "No definite offer has been made to me by the Agua Caliente group to appear in a comeback match before the international border. I have been invited to make the trip and to look things over there, and it is likely that I will go there within a few days."

COLEMAN'S HIT SPREE PUTS HIM OVER 400

When Outfielder Coleman of the San Francisco club hit safely four times in yesterday's game of the series with Hollywood, his record for the past six games was twenty-four safe hits in thirty-four times at bat. The Seal outfielder is now batting over the 400 mark, playing in forty-one games.

OLYMPIC CLUB MAY NOT SEND TEAM TO DENVER

SAN FRANCISCO, June 5.—Possibility that the Olympic Club of San Francisco will not have a track team in the national A.A.U. championships at Denver next month because of a subject of speculation here tonight, the matter has not been decided, it was learned, and no one on the ground has an inkling as to which way the sentiment is going to swing.

Percy Looey, athletic director of the Winged-O, said decision is awaiting the return to this city of William H. Humphrey, the club president. Humphrey now is in the East on a business trip and is expected back here Saturday. One of his first orders of business on his return will be to confer with the athletic side of his staff to thrash the thing out.

RABBIT PUNCHES

PAUL LOWEY

BORAH SAYS GOOD-BY

THE passing of Charles Borah from active competition will be regretted by all—just as was the injury that laid him low and prevented him from winding up his college career in a blaze of glory.

Borah has one truly great college year. As a sophomore he ruled supreme in college ranks. Last year and this year his legs gave out, and he has never been the same sprinter that 1926 saw.

But his record in that one year will be one the curly haired Trojan skipper can look back upon with pride and exultation. In the L.C.A.A.A. meet, for example, he ran six remarkable races in none of which he was defeated.

His two heats and the final in the 100-yard dash were all clocked in 9.18-10. His first heat in the 220 was run at a 21.10, the semifinals in 21.10-12, and the final in 20.10-12, a new L.C.A.A.A. record which is just shy of the world's mark.

Six wonderful races in two days' time.

Coming back to the Coast Conference meet at the Coliseum Borah won the 100 in 9.4-10, and the 220 in 21.10, a new intercollegiate record for the conference.

He followed this by winning the 100 in the national A.A.U. meet at Lincoln, Neb., in 9.3-10, although the first was later awarded to Chet Bowman, and captured the 220 in 21.3-10.

That was Borah's big year.

In renouncing the track Borah buckles down to study of the profession that Bud Houser is now striving to make famous—dentistry.

And both Houser and Borah are two splendid athletes. Southern California can well be proud of. They were both great competitive athletes, played the game fair, and earned the esteem of friend and foe.

GUESSING THE WINNER

IF YOU want to know who is going to win the Schmeling-Usedom fight in New York get in touch with "Wild Bill" Lyons at James Woods' celebrated hostelry, the Biltmore.

Bill, who is the only living man I know that can out-talk Jimmy Doughtery, is only with us for a few days, but he's ready for all debates.

Bill isn't quite sure about that New York fight himself, but he can argue very heartily on both sides of the question.

"Schmeling," says Bill, "will win if he puts up the type of fight he did against Johnny Rizzo."

"On the other hand, Paulino if he battles as he did against Harry Wills is bound to be victorious."

Both of the bouts Bill refers to were knockout affairs. At any rate "Wild Bill" intends to be in on the killing, and is leaving here the latter part of the week bound for New York.

THE BLACKEST SHEEP

IOWA'S predicament undoubtedly will make other universities whose athletes have been under active watch their step.

Iowa isn't the only university with alumni who prosecute and subsidize athletes.

But Iowa appears to have been a little bolder about the matter than others. Therein lay Iowa's chief sin.

And they had to make an example out of somebody. So Iowa got it in the neck for doing what others are more circumspect about.

ANDY HOUSE LUCKY AS SEATTLE WINS

SACRAMENTO, June 5. (AP)—Andy House got away with a lucky win over the Sacramento Senators today when his mates pounded out a 7-1 victory despite his being in constant trouble. He yielded sixteen hits of all sizes, but bucked down in the pinches. Viced was out of the game for four runs in the last two innings, and failed to finish. The series is now even with a win each. Small Fingers Help Control

BY SOL METZGER

Jones, Smith, Hagen, Farrell and most stars, whatever the grip used, apply it with their fingers. A finger grip gives a longer radius for the wrist to work with, that is, a longer distance from wrist to where the first fingers actually hold the club. This added length means greater clubhead velocity when the final punch is applied in driving with the wrist.

None of them neglect the little finger and its next-door neighbor when holding the club. But many of us grip with only the first two fingers of each hand. That means inability to control the club through the swing. But the grip, equally applied, with all four fingers, not only aids in control, but tremendously in bringing about two necessary fundamentals—keeping the left arm straight and the right arm close to the right side. We must do the latter in order to hit through the ball from inside the circle.

To some practice swings with the grip correctly applied. You'll note the tendency for the left arm to stay straight and the right arm to behave. The added pressure of the two smaller fingers seems to push the heels of the hands against the shaft. This causes the very desirable results enumerated. Tomorrow—the head in the drive.

Mr. Metzger has prepared a booklet on "The Art of Fingers" in which he reveals the secret of how to make the ball "bite" the green when it hits. Send stamped address to Sol Metzger, 1000 S. Main St., Los Angeles, Cal. (Copyright, 1928, by Publishers Syndicate.)

OFFICIALS BAN CARD "BLOCKS"

(Continued from First Page)

holds the decision of Kinter Hamilton, local track official, who ruled out the Stanford blocks in the second round. Templeton ordered his men to use them, anyway, and Hamilton declared all points scored by men using the blocks to be invalid. The S.C. Trojans won the California title, although on actual performance the Cards won handsily.

The I.C.A.A.A. ruling against all blocks—foot or hand—also voids the California title. The Trojans' victory in support of the hand blocks was that they should be held legal as long as runners in the Olympic Games had been permitted to use foot blocks.

Favorites in Squash Win

All seeded players have come through the first round in the Hollywood Athletic Club handball squash-handball doubles tournament.

In the feature matches Bill Holman and S. S. Rockey (scratch) defeated H. I. Crockett and G. C. Crandall (14) 21-13, 21-30; Dave Butler and Abe Roth (3) defeated Bert Hartwell and Ben Hendricks (8) 21-9, 21-17, and Chet Cooper and Oli Pratt (scratch) eliminated The Boy Masses and John Holland (14) 21-18, 21-17.

Results of the first round:

Holman-Rockey (14) defeated Crockett-Crandall (14) 21-13, 21-30; Butler-Roth (3) defeated Hartwell-Hendricks (8) 21-9, 21-17; Cooper-Pratt (scratch) defeated Masses-Holland (14) 21-18, 21-17.

PHILADELPHIA SENDS HASSLER TO BEAVERS

PHILADELPHIA, June 5. (AP)—Joseph Hassler, substitute infielder of the Philadelphia Athletics, was today released to the Portland club of the Pacific Coast League. Hassler will report to Portland next Monday.

GRIFITH PURCHASES ATLANTA BALL CLUB

ATLANTA, June 5. (AP)—Sale of the Atlanta baseball club of the Southern Association to Clark O. Griffith, president of the Washington American League baseball club, was announced late today by R. J. Spiller, president of the Atlanta organization. The transfer takes place the 14th inst.

IRA DEEN WINS

PORTLAND (Or.) June 5. (AP)—Ira Deen, Salt Lake City, won from Bob Kruse, Oswego, Or., in their heavyweight wrestling match tonight, two falls to one.

BILL SPENCE FUNERAL TODAY

Funeral services for Bill Spence, local race driver who was killed during the Indianapolis speed classic Memorial Day, will be held this morning at the Little Church of the Flowers in Glendale. The hour is 11 o'clock. The body will be laid at rest in Forest Lawn Memorial Cemetery.

BAKERSFIELD LOSES TO SAN BERNARDINO

BAKERSFIELD, June 5.—San Bernardino kept up its winning ways here today at the expense of the local Bakersfield team in a regular scheduled game of the California State League, turning back the Bees, 13-8.

KRISHNAMURTI SUED IN CRASH

Hindu Philosopher Held to Blame for Accident

Party in Collision Demands \$8000 Damages

Summons Balks Arranged Return to Europe

Jiddu Krishnamurti, Hindu philosopher and religious leader, has been made defendant on the eve of his departure for Europe in a suit for approximately \$8000, filed in Ventura by Mr. and Mrs. G. McReynolds of Casitas Springs as an aftermath of an automobile accident Monday on the Ojai road.

The suit, filed by B. L. Greig, attorney for the McReynolds, charges that Krishnamurti was driving carelessly and with negligence and that he failed to use due care when he pulled his car sharply over on

FIANCEE ENTERS WILL FIGHT

Jesse E. Marlin died in battle near Fiume, France, October 5, 1918. Now his sister and his fiancée are engaged in a legal battle over his government insurance, which amounts to \$3722.

Miss Claire Morris, fiancée of Marlin, recently filed his will for probate. Dated December 1, 1917, at an eastern training camp, it be-

RULING SETTLES LEGAL QUESTION

Supreme Court Sets at Rest Juridical Problem

New Trial for Man Found Guilty by Judge

Only Defendant Himself Can Waive Trial by Jury

Finis was written in Supreme Court here yesterday to a controversy over a legal question which has been carried through all the State courts, beginning with a Los Angeles Superior Court and winding its way to the highest tribunal.

In an opinion handed down by the highest court the decision of the District Court of Appeals that a defendant in a criminal action does not waive his constitutional right to a trial by jury unless he makes a verbal statement to that effect which was upheld. Waiver of trial by jury and consent to a trial by court cannot be made by the defendant in stipulation with the prosecution.

The opinion was based on a petition by the Attorney-General and District Atty. Pitts for a hearing in the case of Tony Garcia, convicted

POTENTIAL FACEBURST OF TEARS IN STORAGE

A thousand gallons of potential tears arrived at the Hall of Justice yesterday and were stored carefully in a cool dry place.

The lachrymal torrent at present is bottled up in the form of fifteen dozen tear bombs of the latest design ordered by Sheriff Traeger for emergencies.

Charles Ellison, deputy sheriff in charge of the ammunition room, estimated that the fifteen dozen tear bombs are capable of generating 1000 gallons of tears, more or less, depending upon the number of persons present at the time of their release. His estimate is based upon a personal experience, when an unruly bomb caused six hardened officers to break down and cry.

THAT PA

DON'T limit your suffering to a special headache. Keep it as millions of others do, as the more excruciating pain as neuritis, migraine and other. Exposure may bring you that pain needs a lot of rest. It takes to take a Bayer Aspirin tablet. This product is harmless, as your physician testifies. It does not upset the heart or upset the stomach. Proven directions for its use are tucked in each box. Bayer on the box and the genuine printed in red.

Hospital Chiefs to Attend Meet

Executives of Southern California hospitals will leave Los Angeles next week for Atlantic City to attend the thirty-first annual convention of the American Hospital Association there from the 17th to the 21st inst., inclusive.

The Los Angeles delegation will include Mrs. Lola M. Armstrong, R.N., editor Western Hospital and Nurses Review; E. G. Fulton, manager Glendale Sanatorium; Miss Hazel Kershaw, R.N., director of nurses, Methodist Hospital; Preston T. Slayback, manager Orthopedic Hospital; School; Miss Mildred Riese, R.N., superintendent Orthopedic Hospital; Mrs. Katherine Kasper, R.N., superintendent Kaiser Permanente Hospital; G. W. O'Brien, superintendent California Hospital; Wallace F. Vail, manager Pasadena Hospital; and Miss Cora A. Mathis, superintendent Murphy Memorial Hospital, Whittier.

BOY AWARDED CUP

Youth Rated Writer of Best Essay on Recent Civic Experience

Jack Freeman of Harvard Military School yesterday was declared winner of the silver loving cup donated by Dr. James Steinberg, chairman of Boy's Day in Citizenship, for having written the best essay recounting his experiences while acting as chief of the fire department for a day during the recent Boys' Week.

Two papers were tied for second place, "A Day in City Hall as President of the City Council" by Joseph V. Di Muro, and "A Day as Superior Court Judge," by Sam Shabo of Polytechnic High School. Honorable mention was awarded Robert McWade, 21, of Beverly School, for "Reminiscences of an Amateur City Treasurer," Dewey L. Reasman of Frank Wiggins High School for "Water and Power Department," and Harry Glazer of Wiggins High School for "Deputy Chief of Police for a Day."

WESTLAKE HAS M-G-M. "The Bridge of San Luis Rey," with an all-star cast headed by Don Alvarado and Lily Damita, starts at the Fox Westlake tomorrow. This is M-G-M's presentation of the year's most popular novel and is a synchronized film. Ernest Torrence has a featured role and the remainder of the cast is equally prominent. A Clark and McCullough talkie shift, "Beneath the Law" completes the current program which will continue until Sunday.

GLA. CALLED WORLD LEADER

Moore Predicts Bright Future for School

Students at Westwood Will Reach 6500 This Year

University of California at Los Angeles is destined to become one of the greatest teaching centers in the world, favorably compared to the famous institutions of Europe, said Dr. Ernest C. Moore, president of the university, in an address at the City Club.

Dr. Moore said the university does not count on the day of the student body, but of a competent and cultured community.

Dr. Moore said it is a statement of fact that the university is the only one in the country that has the right quality of people to make it a university.

Dr. Moore said the university is the only one in the country that has the right quality of people to make it a university.

Dr. Moore said the university is the only one in the country that has the right quality of people to make it a university.

THAT PAIN
DON'T limit your use of Bayer Aspirin to the occasional headache. Keep it handy for millions of uses. It is the most effective remedy for rheumatism, neuralgia and sciatica. Exposure may bring pain, but that pain needn't last longer than it takes to take a Bayer Aspirin tablet. This product is perfectly harmless, as your physician can testify. It does not affect the heart or upset the stomach. Proven directions for its use are tucked in each box. Just be sure you get the genuine Bayer on the box and the word "Aspirin" printed in red.

ASPIRIN
Available in the trade mark of Bayer Laboratories at Monrovia, California.

UCLA CALLED WORLD LEADER
Predicts Bright Future for School
Westwood Will Rank 650 This Year
University of California at Los Angeles is called the world's leading university by the University of California at Berkeley in its annual survey of the world's universities. UCLA is ranked 650th in the world, with a score of 100. The survey is based on the number of students, faculty, and the quality of the university's work. UCLA is the only university in the world to have a score of 100 in the category of "quality of work." The survey is conducted by the University of California at Berkeley, which is the oldest and largest university in the United States. UCLA is the youngest and smallest university in the United States. The survey is a comprehensive study of the world's universities, and it is the only one of its kind. UCLA is a member of the Association of American Universities, and it is one of the leading universities in the world. The survey is a testament to the quality of UCLA's work, and it is a source of pride for the university and its students.

LIFE DERELICT SEEKS DEATH
Noah Jacobs, 28 years of age, yesterday tired of being a self-styled "shifting derelict" on the ocean of life, according to a police report, so he wrote a note, lay down in his room at 1107 East Seventh street, reached over and turned on the gas. Other roomers later discovered him and the note, which read:
"I am a minute atom in this vast world and I am tired of being a derelict."
I have ever known in my work at five different colleges and universities," said Dr. Moore. "We shall move to our new buildings at beautiful Westwood, September 20, with 300 teachers. We have the best professor of mathematics and the best physicist on the west coast. We also have one of the best professors of political science and we have a right to be proud of our departments of physics and of history."
Dr. Moore invited the City Club members and the public to visit the handsome new buildings at Westwood which he commended for their architectural beauty, saying that UCLA will be one of the best housed universities in the world. A special invitation was given to attend the dedicatory exercises October 24.
IRISH PICNIC JULY 4
The annual Irish picnic will be held July 4 at Rose Hill Park. There will be prominent speakers, Irish singing and dancing and athletic events.

BANDIT GETS BANK'S \$1000, WALKS OUT
Lone Robber Just Strolls in, Makes Demand, Then Saunters Quietly Away
A lone bandit yesterday held up a branch of the Citizens' Trust and Savings Bank at 6234 South Vermont avenue and escaped with \$1000, according to a report made to the police by H. L. Bailey, the manager.
In the bank with Bailey, when the robber entered, were Howard Loy, teller; Maude Culbertson, bookkeeper, and two customers. Very leisurely, it is reported, the bandit strode up to Bailey, leveled a gun at him and demanded money. Bailey handed him all the available cash, whereupon he walked slowly out and disappeared.
W.C.T.U. MEETS TODAY
The Los Angeles Women's Christian Temperance Union will meet today at 2 p.m. in the First Methodist Church, Eighth and Hope streets. Mrs. Allie Simmons Wheeler will conduct a parliamentary drill. Mrs. Mattie M. Doughty, president of the City Federation and also State director of Sunday-school work, will address the meeting in the interest of the Sunday-school department.

White Begins His California Border Survey
Survey of border conditions in Southern California was begun yesterday by Assistant Secretary of Labor White. Accompanied by other Federal officials he left yesterday for San Diego to conduct an investigation with reference to immigration.
Mr. White recently completed a survey of conditions along the border of Texas, New Mexico and Arizona and will complete his western inspection with the California survey.
On his trip to the border Mr. White is accompanied by Walter E. Carr, district director of immigration; I. F. Wilson, chief supervisor of the immigration service, and Thomas Shoenberger, assistant commissioner of naturalization. The party is expected to return to Los Angeles Saturday.
Gas Company Sued as Result of Cafe Blast
Recalling the fire and explosion that destroyed the Russian Eagle Cafe, Hollywood film players' rendezvous, a year ago, Theodore Lodjensky, who was manager of the restaurant, yesterday filed suit in Superior Court for \$10,000 damages against the Los Angeles Gas and Electric Corporation.
According to the complaint, the gas company failed to turn off the gas following a fire in the cafe, with the result that the explosion occurred. Lodjensky states he was injured seriously in the blast.

EXECUTORSHIP IS TOO MUCH OF A BURDEN FOR ANY INDIVIDUAL

WHY thrust the responsibility of administering and managing your estate upon some friend or relative who, undoubtedly, has plenty of troubles of his own? Few persons in the world would really desire a job of this kind. Unless you can find some individual who thoroughly understands law, finance, accounting, real estate, bonds, mortgages, business economics—and who is honest, industrious, broadminded and unbiased—your heirs may suffer. Even though you do find such a person, he may die unexpectedly, just when he is most needed. Play 100% safe by appointing Title Guarantee and Trust Company as your Executor and Trustee.

Check Charge Results in Suit
Charging false arrest in connection with a dispute over \$20, Joe Tenner, vaudeville musician, yesterday filed suit in Superior Court for \$123,900 damages against Cary Ellis Wilson and Frances E. Wilson, music publishers.
Tenner asserts the dispute was the result of differences over checks given for services performed by him under a contract to arrange music for the defendants, who, he declares, caused his arrest on a charge of petty theft. Tenner, who states he was cleared in Municipal Court, charges his reputation was injured and he lost a valuable contract because of the asserted acts of the defendants.

Follow the kiddies~

They know what's GOOD... it's SUNFREZE... fresh-filled in a cup with FRUIT ON TOP

When the youngsters say it's good—it must be! And the new Sunfreeze Cups certainly are! Here is real Sunfreeze quality—simply served another way. Sunfreeze vanilla, chocolate or strawberry—fresh-filled in cups at the fountain. Then, crowned with your choice of the four favorite toppings—crushed fresh strawberries, heavy chocolate, creamed marshmallow or delicious crushed pineapple. A big sundae treat that costs no more.

And remember—for your own protection—only selected dealers can serve you this new way. They receive Sunfreeze quality fresh each day. And each dealer is licensed to serve you Sunfreeze—and only Sunfreeze—in these new Sunfreeze Cups with Sunfreeze fruit topping!

What a treat for the kiddies! Just as big a treat for you grown-ups. Try it! You know it's real Sunfreeze—if it's in a Sunfreeze Cup with fruit on top!

fresh-filled at the fountain 10c

SUNFREZE with the **FRUIT ON TOP**

Always Expert Fountain Service where Sunfreeze Emblem is displayed
You needn't go very far to find the attractive Sunfreeze emblem. These red-and-gold emblems can be seen in hundreds of drug stores all over Southern California. They identify the store that sells Sunfreeze—"the better ice cream." They also guarantee a fountain service that is second to none anywhere. Sunfreeze fountain service is super-service and as unfailing as the super-quality of Sunfreeze itself. Moreover, it isn't any new idea. It has a background of many years' standing. It is a tried and tested method of doing business—a method which trains every dealer to serve Sunfreeze in a manner worthy of its uniform high quality.
Special Store Advisors
For years, California Dealers—makers of Sunfreeze ice cream—have maintained a corps of highly trained fountain advisors who are constantly at the disposal of every drugist and dealer who sells Sunfreeze. These men are experts—chefs, confectioners, dispensers, interior decorators, window trimmers, display artists, etc.—and their services are free on request. They bring to the Sunfreeze store all that is latest and best in fountain recipes, in store equipment and design. They advise on the purity of foodstuffs and on the quality and flavor of every item the fountain serves.
Store "Atmosphere" Always Attractive
This is the reason why cleanliness and courtesy in all Sunfreeze stores is unending—and why prompt attention, careful and correct dispensing are so consistent. You will always find the "atmosphere" of a fountain that sells Sunfreeze just a little better than most others. These things are "standard equipment." You can walk into any store in Southern California—where it is well—and demand "Sunfreeze with the Fruit on Top," and you will get the identical quality everywhere—the same fresh fruit toppings—the same dairy cup and spoon—the same courteous and efficient service. So, always look for the Sunfreeze Emblem in the store window. It denotes "the better ice cream"—"a better fountain service"—and "super-quality merchandise" in everything the store sells.

SUNFREZE breaks the tape—the Winner!

Ralphs Newest Market to Open Its Doors Today
Ralphs Grocery Company will open its newest market at 10 a.m. today at 9711-9717 Hollywood Boulevard, at the same time introducing novelties in construction and service drawn from fifty-five years of experience. The official opening continues from 10 a.m. to 6 p.m. today and tomorrow, and until 5 p.m. Saturday. Two hundred representatives will assist, and Leroy Perry's orchestra will furnish music on afternoons and Saturday evening. Equipped with most modern fixtures, the new Ralphs store will operate a quick service system whereby a customer can select goods in any department at leisure, not paying until selections are completed. Through a new cash register device all items are listed by the cashier, while a checker wraps or packs the goods, having them ready before the customer pays. Uniformed employees carry all heavy purchases to motor cars of customers. In construction, the market is free of posts or trusses, being covered by a new patent roof. The ceiling is hand stenciled in pastel decorations, and the walls are plastered in stone effect. The warehouse section of the building is three stories in height.

**TALKIE CAST
TAKES BOW
AT UNITED**

"Alibi" Performers Will
Attend Night Showing of
Melodrama Tomorrow

A gala event at the United Artists Theater will be the personal appearance of practically the entire cast of "Alibi," with showings of the picture tomorrow night.

Charles Morris, who has jumped to cinema importance with this one portrayal as the slick young gunman; Pat O'Malley, who has the role of the cop; Irene Harrison, who sings the theme song, "I've Never Seen a Smile Like Yours"; Regis Toomey, who provides the smile that inspires the song; Miss Busch and Harry Stubbs are those who will be at the theater in person, it is announced.

All of these make their talking film debut in the dramatic musical thriller at the United Artists Theater. The picture is an adaptation of the stage play, "Nightstick," with several sequences featuring spectacular chorus song and dance numbers added to the suspenseful action of the drama.

Morris is well known on the New York stage, where he has played several roles similar to the one in "Alibi," and Regis Toomey, Irene Harrison and Harry Stubbs are also stage recruits. Pat O'Malley and Mae Busch are players who are well known on the silent screen, but who have their first talking roles in the current opus.

**Cadman Songs
Featured at
Club Concert**

The Orpheus Club of male singers led by Hugo Kischner gave a concert at the Philharmonic Auditorium last night, demonstrating its practical interest in resident musicians. The composer most in evidence was Charles Wakefield Cadman. His songs were sung by Rosalie Barker Frye, contralto, and by the chorus. The composer accompanied and the music was directed by the conductor, Dr. Irving Berlin. Cadman contributed a dedicated song of love.

It was one of these jolly concert programs which male choruses delight in and go with enthusiasm. Vikings, Assyrians, Shades of Evening and even the Lost Chord closed the list.

Miss Frye was a good voice and the melodic gift of Cadman had every opportunity in four new songs of dawn, you, the moon and life. The popular Hollywood contralto does not improve her diction to any appreciable extent as time goes on but the quality of her voice makes diction of secondary importance to most audiences.

Dr. Ray Hastings at the organ and the personable Mrs. Jacobson assisted with accompaniments.

**Attractions for
Circle Plentiful**

When Janet Gaynor comes to the Fox Carthay Circle Theater Monday evening, with the western picture "The Desert Song," the public will not only see a production made by the noted craftsman, F. W. Murnau, but will also have the first opportunity of hearing Miss Gaynor's voice on the screen, as this is her initial talking picture.

In addition to this Managing Director Carl E. Hillman has arranged to be surrounded by a picture which will be the latest of Hal Roach's all-talking series, starring the young stars Laurel and Oliver Hardy. This new laugh encounter is called "Berth Marks," and presents these two humorists in what is said to be the funniest and most original comedy of their careers. Another highly important number of the new program will be Elmer's own original feature, "The Black Watch," a special arrangement of popular Spanish songs which will be featured by his concert orchestra.

"The Black Watch," current all-talking Movietone feature, will end the engagement Sunday evening.

**DIRECTOR COMPLETES
NEW SOUND PICTURE**

Musical comedy and similar theatrical fare will take its place as a regular part of film company's future production schedule, according to Roy Del Ruth, Warner Brothers director, whose Vitaphone operetta, "The Desert Song," is now showing at the Tower Theater.

Del Ruth, who has just completed an all-technicolor, all-singing, dancing and talking film of "The Gold Diggers of Broadway," with a cast of Vitaphone favorites, believes that film versions of popular musical stage hits will be as usual in the motion-picture versions as tragedy, comedy and melodrama.

These pictures, the director states, will be much more elaborate than the stage versions, due to the greater amplitude of the screen.

RICHARD DIX AT RITZ

The final showings of "Nothing But the Truth," Paramount's talking feature starring Richard Dix, take place at the Fox Ritz Saturday. "Nothing But the Truth" is a merry comedy, adapted from the famous stage hit of the same name. It presents Dix in the role of a young man who makes a wager that he can go twenty-four hours without telling a single "untruth," and the ensuing incidents are highly amusing, to say the least. On Sunday the Fox Ritz will offer "Makin' The Grade," with Lela Moran and Edmund Lowe.

NEW POM 'OM SHOW

"The Rajah's Harem," new oriental tables, which scored a sensational hit at the famous night club in Cairo, will be introduced by the ab- / girs at the Pom Pom, Hollywood, tonight as an added feature in "Hot Bands," current musical revue, under the direction of William Minkielohn. Clarice Cannon, specialty dancer from Earl Carroll's "Vanities," will lead this Pom Pom girls in startling costumes, of "Jungle Chiffon," in pastel shades of orchid, peach blossom, sunflower, canary, turquoise and geranium.

"Paris Bound" Hollywood Bound

Mildred Van Dorn
Portrays her original New York role in the comedy which will have its western premiere at the Hollywood Music Box Monday night.

MAUDE ADAMS HIDES HERE

Actress Experimenting With Films, Charles Wagner
Relates; Talkies Not Menace, He Says

BY ALMA WHITAKER

Maude Adams, lovelier, sweeter, more exquisite than ever, is in Los Angeles, or its vicinity, experimenting with sound and color.

This was the piquant tit-bit divulged by Charles Wagner, manager for so many starry ones—John McCormack, Gail-Court, Cassia Walska, et al.—the luncheon given in his honor by Marie Armitage yesterday.

Maude, he confided, will go to In-O'Neill hasn't written a worthwhile one for years, "Strange Intertide" being a freak success engineered by the Theater Guild, he averred. Some could be great if they would but take more pains, put in more time on them. As it is, we need new playwrights even more than new actors and actresses. Still, the fellow is a cheerful pessimist. He is probably only trying to guard the incumbents in both fields to higher endeavor.

**Boulevard Will
Show 'Valiant'**

"The Valiant," a picture which has created a sensation of a sensation in picture ranks as well as being the medium of bringing forward a new dramatic star in Paul Muni, starts at the Fox Boulevard Theater today.

"The Valiant" is a simple, straightforward, dramatic story of a self-confessed murderer who is willing to pay his debt to society without defense or even his true identity being made known. It is his one noble act to his family in his entire life.

Muni, while a comparative newcomer to the screen, is a veteran of the stage. He comes of a theatrical family and has himself been before the footlights since the age of 6. He first gained prominence in the stage play, "Four Walls," which resulted in his being signed to a long-term contract by William Fox.

On the stage will be the "Boardwalk Revue" with the Boulevard band and girls featuring the famous first bathing-beauty contest.

Barrie Wallace announces the formation of the Players' Club of Los Angeles. It will be organized along the same lines as the similarly identified club of Chicago by Kenneth Croft, who was director of the theatrical organization for three years.

The purposes of the Los Angeles Players' Club, according to Wallace, will be to foster interest in the theater, to coach and train players, to study such types of plays as normally would not be seen at the commercial theaters in Los Angeles, and to produce, with competent casts, tried and untried plays.

A feature will be the weekly "dramatogue," which is the casting and reading of a play without action or scenery. Pieces will be produced at least once a month, being cast from the membership of the Players' Club.

The activities of the club will begin at once.

WARNERS LIST LATE SHOW

There was such an expression of approval by the public for the mid-night frolic held last week at Warner Brothers Theater, in connection with the showing of "On With the Show," the first all-natural color screen musical comedy, that the management has decided to have another such performance Saturday night.

Joe K. Brown, whose antics have amused the patrons of the theater who have already seen "On With The Show," has been chosen to be master of ceremonies. Charlotte Greenwood will sing some of her inimitable songs as will Eddie Busch, late of the New York musical comedy stage.

John Boles, who was featured in "The Desert Song," will be there with Vivian Segal, his leading lady in his latest picture, "The Song of the West," which is now in the making. Lowell Sherman, Conway Tearle, George Stone and many other stars will be there and also Larry Ceballos's girls, who will do some of their latest dance routines.

ELABORATE ACT AT LOEW'S

Fanchon and Marco launch what is called the "biggest stage show yet today at Loew's state on the new program featuring Lou Chaney in his latest picture, "Where East Is East."

Seventy-five persons, said to be the greatest number ever assembled on any stage for an act of this type, comprise the cast of the new idea, "Through the Gates," which is said to be glittering with gowns, costumes and scenic effects. Rube Wolf and his band head the ensemble.

Chaney adds another to his "thousand faces" in his characterization of Tiger Haynes, wild animal trapper in the jungles of the Orient. Tense drama unfolds as his experience with two women are revealed—one his daughter, the other his faithless wife, a beautiful, cruel woman who stoops so low as to try to steal her own daughter's lover. Lupe Velez is the daughter and Estelle Taylor, with a new slant-eyed make-up which entirely alters her personality, is the beautiful "menace."

Hal Roach's personally directed all-talking comedy, "Hurdy Gurdy," is an added attraction, featuring Max Davidson and others. Fox Movietone News also gives voice to the screen.

**GUS ARNHEIM
WILL APPEAR
AT ORPHEUM**

Cocoanut Grove Orchestra
to Play Last Tunes Prior to
European Trip

Making a final appearance in Los Angeles prior to departing for European engagements, Gus Arnheim will present his celebrated Cocoanut Grove Orchestra as a feature head-line attraction next week at the Orpheum Theater. Embellished with newly acquired, the presentation will be specially arranged for the occasion.

Following his Orpheum date, Arnheim, noted as a result of his Ambassador Hotel activities, heads his band into the Cafe des Ambassadeurs, Paris, France, for an indefinite engagement, after which it is scheduled for appearances in Ostend, Berlin, Venice, London and other continental cities.

At the Orpheum also will be Anatole Friedland's New York Night Club Revue, Bert Gordon and Louise Equire, Frank DeVoe, Frank Wilson, Hobbles and Buck and other R-K-O. features.

**Dowling Sings
in New Picture
at Paramount**

Eddie Dowling, one of the "biggest names" on Broadway for the past ten years, makes his debut to Los Angeles audiences in "The Rainbow Man" at the Paramount Theater today.

He has reigned as king of the musical comedy singers, dancers and leading men for this period, it is said, and has been seen but once on the Coast. That was in the leading male role of "Sally, Irene and Mary." He is now brought to Los Angeles in a vehicle especially designed for his talents, presenting him in a simple, but powerful story.

Dowling's picture has a moving, human plot. The hero is a small-time actor who continues to be one throughout the film. He doesn't strike oil, fight a duel with thirty villains or become a popular overnight. Withal, he has a stirring musical romance. "Sleepy Valley," the theme number of the picture, is already recognized as a potential success. It is a real hit, a stirring musical number in the film are "Little Pal" and "Rainbow Man."

Frankie Darro and Marion Nixon are also featured. Miss Nixon has in addition to her beauty and dramatic ability, a rich voice. Sam Hardy appears in the film as the proprietor of the minstrel show in which Dowling sings the song "The Boudoirs recording quintet and Lloyd Ingraham have the other supporting roles.

"The Rainbow Man" will be supplemented by a program of audibly short subjects, a Milton Charles organ concert, and an orchestral overture.

**William Boyd
From Stage to
Act at Mayan**

Felix Young today announced the signing of William Boyd, New York stage star for the important male role opposite Ruth Chatterton in "Top of the Hill," the Charles Kenyon drama which will have its world premiere at the Mayan Theater the 27th inst.

This gives Young two of the highest ranking stage principals ever cast in a West Coast premiere, and offers authority to the young producer's ambition to make the debut of the Kenyon drama one of importance in the theater. Boyd has a reputation of selecting his own plays, and Miss Chatterton, noted "Top of the Hill" sufficiently important to obtain a leave of absence from what looms as a brilliant career in talking pictures, with "My Lady Lies" serving as his last vehicle and, before that, "Tenth Avenue."

Young promises the addition of several other important stage names this week, with rehearsals booked for Thursday.

**Harry Jolson
Leads Festive
Grauman Show**

To Harry Jolson, singing and talking comedian and brother of Al Jolson, will go the distinction of heading the array of celebrities of stage and screen who will be guests at Saturday's mid-night matinee of "The Broadway Melody" and Sid Grauman's prologue, now in its last two weeks at Grauman's Chinese Theater.

The group of noted performers to frolic in impromptu presentations on the stage as guests includes Elsie Lange, musical comedy prima donna of Greenwich Village fame, and Earl La Vere, comedian.

Plans have been made by Sid Grauman for one of the stars of "The Broadway Melody" to act as master of ceremonies at the show, at which special tribute will be paid the visiting Shriners. Advance reservations include scores of parties in which local nobles are entertaining fessed visitors from afar.

TALKIE AT UPTOWN

Friday marks the first showings of "Two Weeks Off," Jack Muihall's latest co-starring vehicle with Dorothy Mackall at the Fox Uptown Theater. "Two Weeks Off" presents this popular pair in their first talking roles and is one of their funniest and most amusing screen vehicles. The picture will continue until Sunday night, presented with an interesting program of talkie "shorts." Starting Monday, it is announced, the Fox Uptown will offer "The Bridge of San Luis Rey," M-G-M.'s spectacle with Don Alvarado and Lily Damita.

MIAMI ARRIVES

Miami Campbell, blond beauty, arrives tomorrow to take her place among aspirants for honors in talking pictures. Miss Campbell has been playing leads on the Coast first at "Fountain of Youth," Oakland, and the Savoy Theater, San Diego.

UPLAND, June 1—Dr. J. H. Holt, 1921 Ocean ave., widely known throughout California for his ability to locate lost property, has been selected by the Upland Chamber of Commerce to be the speaker at the annual picnic to be held at the Upland Hotel, 1921 Ocean ave., on Sunday, June 3, at 2 o'clock. The picnic will be a most enjoyable one, and the speaker will give an interesting talk on "Lost Property." The picnic is free to all, and the speaker will give a talk on "Lost Property."

Don Bernhardt, a Christian Television reported out of his bar home, where he has served out and received in an exchange on the Arrow Road in Kaci Canyon, off the Drive, Beverly Hills.

**STATE MONEY TO
PAY FAIR PRICES**

SANTA ANA, Jan. 10.—(AP)—The state legislature today passed legislation authorizing the state to purchase agricultural products at fair prices.

to be paid over a year.
will be used chiefly to pay
fair's premium for the
to about \$17,000 a year.
Such was the plan.

Gov. C. C. Young for the
bill authorizing the
1960 one year tax cut
for the Orleans County
District No. 1.
"We are proud of the
proportion for property
probably will be the
first of the year."
